[ Perceived Satisfaction Interview Results]

No visual effects provided when a web page is dragged to its endpoint

CONFIDENTIAL

- Behold3: Even when webpage is dragged to its end, only information is provided without any effect.
- iPhone: Generates fun for the user with a visual element that seems to bounce.

Behold3

iPhone

Plain because no special effects are provided when dragging web page to the bottommost or side edges.

If a web page is dragged to the edge and the hand is released, a bouncing visual effect is provided.

Direction of Improvement

Provide a fun visual effect when dragging a web page.  
=> Corresponding effect not supported, issue shared by [Browser] Android Éclair.
