## Ready for the big screen

With our largest, most beautiful 4.52" Super AMOLED Plus screen, movies and TV on your phone have never looked better. Plus, HDMI output lets you watch movies, shows, video, or view photos on your own TV, right from your phone.

### Cool Android™ apps

The Samsung Galaxy S II comes preloaded and ready to rock with these great Android apps:

Featured Apps

Samsung Galaxy S II (T-Mobile)  
By Alex Colon | October 13, 2011

Stream live TV using Mobile TV with Mobile HD  
Fast streaming videos from Netflix™  
Samsung Media Hub: Thousands of Movie Titles and TV Shows

Experience lightning-fast browsing with theoretical download speeds of 42 Mbps. Start watching your favorite movies or TV shows as soon as they start downloading. It's all made possible by combining the speed of T-Mobile's fast 4G network® with the power of the Samsung Galaxy S™ II and its supercharged, 1.5-GHz dual-core processor.

## Find anything — virtually anywhere

Whether you're looking for a store across town or a hot new neighborhood restaurant, real-time traffic and directions make it easy. Google Search™ and Google Maps™ filter results by your location, and with Voice Search™ you can find what you need hands-free.

## Frame-worthy photos

Make your magic moments last with beautiful photos from the amazing 8 MP camera. And with 16 GB of internal memory (expandable to 48 GB with optional 32 GB microSD® card), you have tons of room for all your favorite memories.

## Be the center of work and play

**4G Pro**

Give your smartphone a mind for business, so you can leave the office behind and still get everything done.

Cloud services keep critical documents and information available when and where you need them

Top free business apps are preselected and easy to download

Innovative and powerful communication features help you connect more richly

Go to support content for this device

Average download speeds on T-Mobile's 4G HSPA+ 42 Mbps network in four major markets are faster than average home internet speeds as determined by independent third party testing.

T-Mobile's 4G network, including increased speeds, not available everywhere. See coverage details. Limited time offer; subject to change. Taxes and fees additional. **Apps & 3rd Party Content:** Use of some features may incur separate, additional charges and/or require a qualifying data plan or access to Wi-Fi connection. Data rates apply. **Smartphone Mobile HotSpot:** Qualifying data plan required. Plan data allotment applies. Use of connected devices subject to T-Mobile Terms and Conditions. **Device Offer:** Credit approval, \$35 per line activation fee or \$18 per line upgrade fee, and new 2-year agreement on a qualifying plan with up to \$200/line early cancellation fee required. Device and screen images simulated. Device operating system and preloaded content use some internal memory. **Mail-in Rebate Card:** Activation of qualifying plan required; must remain active and in good standing at time rebate is processed. Limited to specific model; supplies may be limited. One device per eligible account. Rebate provided in the form of a VISA card. Allow 6-8 weeks for processing. See rebate form for details. **Mobile HD TV** can deliver a bitrate of 800kbps and 16:9 resolution; the bitrate & resolution you experience will vary based on many factors, e.g., programming & network connection. **Wi-Fi Calling:** Qualifying rate plan and Wi-Fi connection required. Device will not transition between Wi-Fi and the wireless network. **Coverage** is not available everywhere. **Abnormal Usage:** Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming.
