1 is senior VP.

2 MS. HERRIOT: Q. And to whom does he
3 report?

4 MR. MACK: Objection. Calls for
5 speculation.

6 THE WITNESS: I don't have an
7 understanding as to whom he reports to.

8 MS. HERRIOT: Q. What is the
9 telecommunication R&D center?

10 MR. MACK: Objection. Lack of foundation.
11 Calls for speculation.

12 THE WITNESS: By looking at this document
13 right now, I think that it's referring to Samsung's
14 telecommunications research center, R&D center.

15 MS. HERRIOT: Q. Does it have
16 responsibility for Samsung's participation in
17 standard setting organizations?

18 MR. MACK: Objection. Vague.
19 Objection. Vague. Calls for speculation.

20 THE WITNESS: I don't have any
21 understanding, or much understanding as to that
22 aspect.

23 MS. HERRIOT: Q. Is that because you
24 don't know what the center does?

25 MR. MACK: Objection. Vague.

1 THE CHECK INTERPRETER: I just want to
2 make sure.

3 (Speaks in Korean.)

4 THE WITNESS: That would be one of the
5 responsibilities carried out by the R&D center.

6 MS. HERRIOT: Q. So you are saying --
7 sorry. So you are saying Samsung's participation in
8 standard setting organizations is one of the
9 responsibilities of the center?

10 MR. MACK: Objection. Calls for
11 speculation.

12 THE WITNESS: Yes, I believe it would be
13 one of the responsibilities carried out by the
14 center.

15 MS. HERRIOT: Q. Who heads the center?

16 A. Executive VP Kiho Kim heads the center at
17 the current time.

18 Q. Can you spell that?

19 A. K-i-h-o, K-i-m.

20 Q. If you turn to page nine, which ends in
21 Bates number 423, do you see listed in the second
22 row is the US application number 148,181?

23 MR. MACK: Objection. Foundation.

24 THE WITNESS: Yes, I do.

25 MS. HERRIOT: Q. And it's -- the name of

Page 73

1 it is the "method and apparatus for data
2 transmission in a mobile telecommunications
3 supporting enhanced uplink service." Correct?

4 MR. MACK: Objection. Form. Foundation.

5 THE WITNESS: Yes, I see that's what's
6 listed as the title in the second row.

7 MS. HERRIOT: Q. So that's the '516
8 patent; correct?

9 MR. MACK: Objection. Calls for
10 speculation. Foundation.

11 THE WITNESS: Having just compared the
12 numbers listed in Exhibit 6 and that of Exhibit 1, I
13 believe that to be of the same.

14 MS. HERRIOT: Q. So this document is a
15 statement by Samsung that the '516 patent is
16 essential to the UMTS standard; is that correct?

17 MR. MACK: Objection. Foundation. Calls
18 for speculation. Calls for a legal conclusion.

19 THE WITNESS: I think that's what's
20 suggested on the first page of Exhibit 6, having
21 just read that part right now.

22 MS. HERRIOT: Q. And in your view is the
23 '516 patent essential to the UMTS standard?

24 MR. MACK: Objection. Calls for a legal
25 conclusion.
