**A Very Good Value**

October 4, 2012

I would recommend this to a friend!

The Samsung Galaxy Exhibit™ 4G performs very well:

**MNDoug**  
from St. Paul

As a cell phone it is very clear receiving and talking. Screen is very easy to read; I like the small size and high definition screen (eg. for at google maps). Android version 2.3.6 works fine on this phone.

As with most smartphones I wish the battery life was longer; I can always get a day useage maybe 2 days if I keep from my looking at the screen and data useage down.

There are a lot apps. preload, some are useful, the rest are bloatware which waste memory. I'm afraid to try rooting them out. But I'm also still finding a lot of useful free apps. which the SGE 4G runs very well (eg. calendar, police scanner, on/off line Bible, ShopSavvy price scanner YouTube)

**Pros:** Bright display, Inexpensive, Lightweight

**Cons:** sometime slow response, bloatware

**There are some things that I would change**

October 4, 2012

**I would recommend this to a friend!**

First I would make the screen the same size as the Galaxy Nexus. I'm one of millions of growing older generation who's eyes are getting worse the older we get; therefore, I would like to have a screen where the font can be made larger and when I text I would like to be able to clearly see the on-screen keyboard.

**Robie212002**  
from Washington DC

**Pros:** Bright display, Lightweight

**Cons:** needs a bigger screen, needs more ram

**Great phone!**

October 2, 2012

**I would recommend this to a friend!**

This is the first phone I have ever personally owned. All my previous phones had been provided through my job(s). My last device was a Droid Incredible II, which I used heavily on a daily basis. Since owning the Samsung, I haven't missed any feature...except the camera. (Why didn't they include zoom?) Otherwise, this is the perfect phone. For the value and overall performance this phone is great. I haven't missed my Incredible II (except for the zoom).

**Oppus1**  
from Los Angeles, CA

**Pros:** Bright display, Inexpensive, Durable, Lightweight

**Cons:** no camera zoom.

**Good phone, needs better camera**

October 2, 2012

**I would recommend this to a friend!**

I love my phone. It's great, does everything I need it to. The only thing I'm not happy with, is the camera. It doesn't zoom, and the pictures often come out pixelized, when I crop them to zoom in. Other than that it's a great phone!

**mrswoods4evr**  
from Tucson, AZ

**Pros:** Inexpensive, Durable, Lightweight

**Cons:** no zoom on camera
