Become an Ace

GALAXY ACE

“ Dressed for Success ”

Wrap your hands around this sophisticated beauty. Perfect for your professional life, sleek enough for your personal life, the GALAXY Ace has the look of success. The 3.5" display is great for viewing whatever whenever wherever.

“ Smooth Multiplayer ”

The 800MHz processor delivers accelerated performance. Satisfying your need for speed, the GALAXY Ace runs rich programs with ease. Applications start up faster, movies download quicker, and multitasking is a breeze!

“ Make the Moment Last ”

The 5MP camera will always be on hand to capture the moments you want to remember. Various shooting modes such as smile shot and panorama shot make taking pictures enjoyable while hanging out with friends or traveling to new places.

Quicktype by rupe to Type

No more punching individual buttons one at a time! With Quicktype by rupe, you just need to swipe your finger across the letters to get your message across

Business to Go

Work doesn't stop at the office. ThinkFree allows you to stay on top of your game by viewing, editing, and creating Word/Excel/PPT documents from your mobile.
