Enabled for MetroPCS 4G LTE* High Speed Network

The Samsung Galaxy Indulge is the first 4G LTE Android 2.2 Platform smartphone built specifically for MetroPCS. Its functional design delivers a high quality entertainment experience through superior speed and innovation. Now it's faster than ever to access and enjoy entertainment on-the-go and stay socially connected. With state-of-the-industry 4G LTE speed, you'll surf the web complete with flash content, plus download and stream videos.

Launching with Android 2.2 Platform

This extremely popular Android 2.2 Froyo operating system gives you quick access to over 100,000 apps and video games.

Wi-Fi and DLNA Connectivity, and 720p Video Recording

The DLNA (Digital Living Network Alliance) provides immediate connection between your digital devices through Wi-Fi, regardless of the manufacturer. Enjoy the freedom to access, play and share your favorite movies, music, and photos at home or on the go using devices from several makers. And the 3.0 megapixel camera shoots 4 options of video resolutions (720x 480), (640X480), (320X240) and (176x144).

Supershopperlady on January 02, 2012

“This product is an achievement to the business world!”
★★★★★

Although this product was intended for many everyday usage as a cellphone I like to take a moment and express how versatile it is in functioning as a small tool for business, I can after just downloading just 2 apps in the market create, edit and print docs with no problem. I would recommend in thos...[Read More »](#)

Brighter and Better Screens with AMOLED

The screens on Galaxy S phones are not only sharper and glare-free, but also consume less power than traditional touch screens. [See the brilliance of AMOLED.](#)
