First 4G Nexus S Device

You've seen the rave reviews of the Nexus S phone. Now imagine those reviews raving even more, thanks to this being the first Nexus S built to run on a 4G network.

Premium 4" Touch Screen Device Powered By Android 4.1, Jelly Bean

Nexus S 4G offers a premium 4" touch screen, which makes a big difference when it comes to viewing movies, reading e-books or doing spreadsheets. And the Android 4.1, Jelly Bean platform is the latest from Android, with thousands of apps at your fingertips. But most importantly, this phone is pure Google, so it runs all Google apps and programs with lightning speed and stunning smoothness.

Super AMOLED™ Screen Technology & Contoured Screen Design

Stay ahead of the curve when it comes to screen technology. The Super AMOLED™ Screen beams out amazing color and richness, even in bright daylight. And for comfort, Nexus S 4G is the smartphone with the gently curved screen that fits naturally into your hand and along your face.

5MP Rear-Facing Camera With Flash & Front-Facing Camera

The 5 MP rear-facing camera takes razor sharp photos and videos, which are perfect for sharing with friends on YouTube or Facebook. It also has a handy flash for low light conditions, so you never miss a great shot. And the front-facing camera* lets you video chat with friends all over the world.

“The Everything Phone”

★★★★★

This phone is the BOMB!!!! I can do everything I want. I can make it the way I want it to fit me. The only problem I had with it is that it got run over by a car and even after that it still worked, awesome. I love my phone. I can't wait until the next one comes out. I'm a Nexus fan. ...[Read More](#) »

“Fast phone”

★★★★★

I love this phone and I am use to an HTC EVO 4G. Its a fast phone and the storage is amazing..except the internal USB. I highly recommend this phone and take advantage of all the app capabilities!...[Read More](#) »
