A fast phone for a fast network.

The fastest network speed available is 4G LTE, so naturally the Skyrocket™ comes ready to jump right on board and make the most of every blazing advantage the network has to offer. And now you can check voicemails even faster, thanks to Visual Voicemail. It allows you to see your list of messages and who they're from, so you can choose which ones to play or delete. It's a real timesaver.

A processor that makes lightning look slow.

Your Galaxy S II Skyrocket has an astonishingly powerful 1.5 GHz dual core processor to keep all your videos, games and info fast and smooth. Your laptop may feel jealous.

The screen is a sight to behold.

The Samsung Super AMOLED™ Plus Screen is the industry standard for jaw-dropping color. Imagine the most beautiful sunset you've ever seen, now perfectly reproduced on a phone. 4.5" of rich, deep hues and amazing clarity. Yellows are yellower, greens are greener, and blacks are blacker.

Get delicious Gingerbread with every phone.

The Galaxy S II Skyrocket uses the state-of-the-art Android, 2.3.5 Gingerbread as your operating platform. It's fast, versatile, and extremely customizable. Plus you'll have access to over 250,000 apps on the Google Play™. Yummy.

"...beautifully designed phone with all of the high-end features that Android power users have come to expect."
