

The auction went off without a hitch! Working with the auction platform was incredibly easy and the scheduled notifications the system sent out to bidders were so helpful! I couldn't be happier with the entire process."

— Sharon P., Marketing

Auctions

Smart Nonprofit auctions that help you raise more and stress less.

Bonterra's nonprofit auction software is a smart online auction platform built to help you raise more and stress less. Empowering you before, during, and after your auction, organizations can see a 13x return on their investment!

Confidently host your in-person, hybrid, or virtual auction

Built-in best practices and streamlined auction setup ensure your event will be a success.

Give your supporters an engaging bidder experience

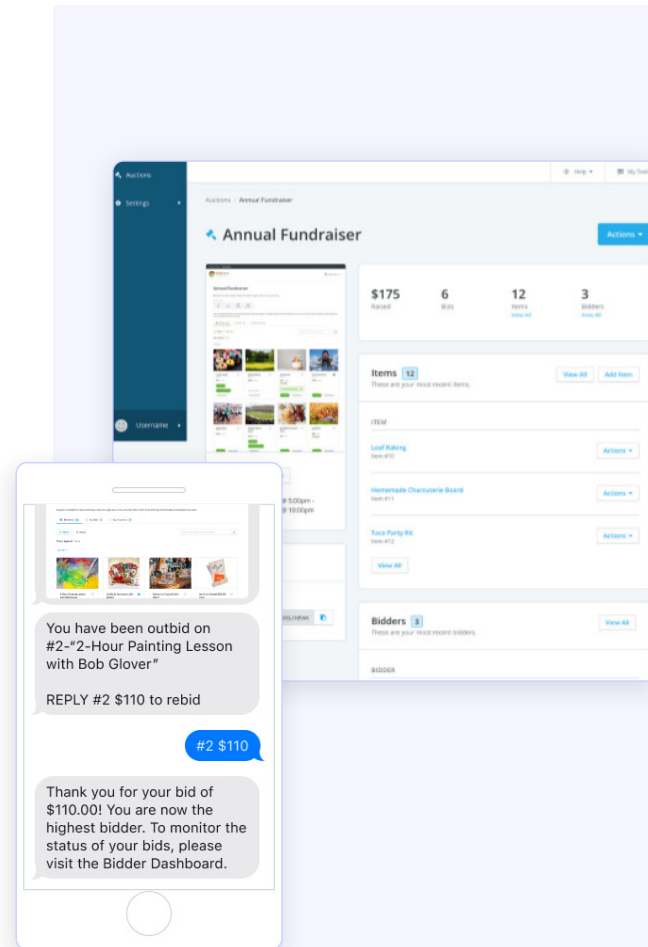

A modern user interface and ability to favorite items, track bids, and receive outbid notifications on their phone, offers supporters an exciting, easy-to-use auction experience.

Identify opportunities with the help of smart features

Gain visibility into which items are gaining interest and let the software prompt you when to message bidders during your auction.

Save valuable time

Self-checkout and automated receipts save volunteer or staff time at the end of your event.

Powering those who power social impact.
