

# Google Ads Data Processing Terms - Subprocessor Information

This page provides information about Subprocessors. Capitalized terms have the meanings given in the [Google Ads Data Processing Terms](#).

## Third Party Subprocessors

Google and its Affiliates use a range of Third Party Subprocessors in connection with the Processor Services.

## Customer Support

These Third Party Subprocessors provide customer and service support. This may include: phone and email support; response, diagnosis and resolution services; incident tracking; product assistance, including the creation of reports; responding to customer queries; and software application development and support for customers.

## Google Affiliate Subprocessors

The Google Affiliate Subprocessors listed below engage personnel to provide service support, IT-facility management, and customer support functions in connection with the Processor Services. The service support and IT-facility management functions include activities related to managing the functionality, availability and reliability of the Processor Services, as well as product management. Some Google Affiliate Subprocessors also provide ongoing customer support for the Processor Services.

Google Affiliate Subprocessors followed by (\*) engage personnel that provide IT-facility management, including the maintenance and upkeep of Google's worldwide data centers.
