

PROTECT INSIDE INFORMATION

Insider trading is illegal – do your part to prevent it:

- Comply with insider trading laws and regulations and our organization's policies.
- Know the kind of information considered material, non-public ("inside") information – don't trade on it and don't tip others so they may trade.
- Honor blackout periods and seek help if you have questions.

Speak to your manager or another internal resource if you have questions about – or suspect a violation of – our policies.
