# The Plan

# The Plan

Design and prototype an app

# The Plan

Design and prototype an app

Go through the steps we go through in trying something out

# The Plan

Design and prototype an app

Go through the steps we go through in trying something out

Show you a variety of prototyping methods

# The Plan

Design and prototype an app

Go through the steps we go through in trying something out

Show you a variety of prototyping methods

Focus on prototyping an experience, not trying out an API or testing feasibility

Who Are We?

# Who Are We?

We work across all of Apple's products

# Who Are We?

We work across all of Apple's products

We explore what new interfaces mean to our devices, OS, and apps

# Who Are We?

We work across all of Apple's products

We explore what new interfaces mean to our devices, OS, and apps

We do this by making interactive prototypes

Introducing

Available Now

None of this is real.  
It's a prototype.

Why?

A white shape palette menu is displayed over the slide content. It contains a grid of various shapes: a dashed line, a solid arrow, a curved arrow, a square, a rounded square, a circle, a triangle, a right-angled triangle, a right-pointing arrow, a double-headed arrow, a diamond, a speech bubble, a rounded rectangle with a tail, a pentagon, and a star. Below the grid is a button labeled 'Draw with Pen' with a pen icon. At the bottom of the menu are five small dots, with the second one from the left being filled, indicating the current selection.

“I don’t know what these icons are supposed to mean, but I can find toast!”

Is it easy to switch between top toast and nearby toast?

“It’s really easy to switch. I just tap right there”

How can we make this better?

“Maybe I should be able to see restaurant names when looking at the map”

“I wish I could see the map while looking at ratings”

What We Want You to Do

# What We Want You to Do

---

Developers at  
companies

Tell your management that prototyping saves time and money by helping you build the right things

---

# What We Want You to Do

---

Developers at  
companies

Tell your management that prototyping saves time and money by helping you build the right things

---

Solo developers

Draw, animate, and hack before you build something

---

# What We Want You to Do

---

Developers at  
companies

Tell your management that prototyping saves time and money by helping you build the right things

---

Solo developers

Draw, animate, and hack before you build something

---

Can't code

Draw and animate, you don't need code, yet

---
