

Delmarva Power Scan

The Delaware State Police want to warn people of the “Delmarva Power” scam that is coming to light again. It has recently been reported that individuals are now responding to residences claiming to be with Delmarva Power or other electric companies requesting to view utility bills. Most subjects are arriving on foot; no vehicle in sight; however, claim that their Supervisor is “up the road.” Please be on the lookout for the individuals responding to the residence asking to see billing information and refusing to provide identification. Also, several victims have been contacted and told they are behind on their electric bill and need to make immediate payment over the phone using a pre-paid or credit card in order to keep their power service active. Please do not make payment to these individuals over the phone and instead please contact Delmarva Power directly at their Customer Care Service number 1-800-375-7117, Hearing Impaired:1-800-822-1200 if you are concerned you may be behind on your account.
