Dear Steve

**Waste Batteries and Accumulators Regulations 2009 (as amended)
Notification of grant of approval of a waste battery exporter**

We have considered your application for approval as a waste battery exporter under The Waste Batteries and Accumulators Regulations 2009 (as amended) (*'the Regulations'*).

Waste Portable Batteries

We hereby grant approval to ERP UK Ltd to operate as an approved battery exporter for waste portable batteries. Your approval extends to the following specified overseas site only:

ABE operator approval number:	BE2410669BE
Overseas site name & address	Amount of evidence notes (tonnes)
	Over 15 tonnes

Your approval is subject to the conditions specified in Part 2 and Part 4 of Schedule 4 to the Regulations. Your approval applies only to the named exporter for the specified overseas site only.

Your approval is valid from **01 January 2024** and ends on **31 December 2024**, unless it is otherwise suspended or cancelled.

The approval allows you to issue evidence notes for waste portable batteries which you export for treatment or recycling at this specified overseas site. You must issue evidence notes in accordance with the Regulations. You must not issue evidence for batteries unless it can be lawfully sent to and received at the intended site in the country of destination.

Waste Industrial and Automotive Batteries

We hereby grant approval to ERP UK Ltd to operate as an approved battery exporter (ABE) for waste industrial and automotive batteries. Your approval extends to the following specified overseas site and categories only:

Your approval covers the following site and categories only:

ABE operator approval number:		BE2410668BE
Battery category	Overseas site name and address	Limit (tonnes)
Automotive & industrial		150 tonnes or less

Your approval is subject to the conditions specified in Part 2 of Schedule 4 to the Regulations. Your approval applies only to the named operator for the specified approved overseas site only.

You have given an undertaking (paragraph 4 of regulation 65) in respect of a tonnage limit, which is indicated for each site in the table above, and consequently you have paid the lower application charge. If you subsequently exceed this tonnage limit you will be liable to pay an additional charge. You must pay the additional charge within 28 days of exceeding the threshold.

Your approval is valid from **01 January 2024** and ends on **31 December 2024**, unless it is otherwise suspended or cancelled.

The approval allows you to export waste automotive and industrial batteries for treatment and recycling to this specified approved overseas site.

Suspension and cancellation of approval

We may suspend or cancel your approval where it appears to us that you have failed, or are likely to fail, to comply with any of the conditions of approval. Suspension or cancellation may extend to one or more of your overseas sites, or may apply to your whole approval. Your whole approval will cease to have effect if you cease to be a battery exporter, or you request that your approval should be cancelled.

You must notify us immediately, in writing, of any changes to the details submitted with your application. If you wish to export to any additional overseas sites you must submit an application to extend your approval to cover these sites, which will incur a charge of £110 per additional site.

You must ensure that all international shipments of waste batteries are in accordance with the Waste Shipments Regulations. More information on this can be found on our website at <https://www.gov.uk/guidance/importing-and-exporting-waste> or by contacting our International Waste Shipments team on 01925 542 265 or emailing to AskShipments@environment-agency.gov.uk.

This approval does not replace any other environmental authorisation that you may have for the site. You must continue to comply with these and other relevant legislation.

Please contact **Farah Hussain** on 020 847 476 08 if you have any queries.

Yours sincerely
