

# UNIVERSAL TERMINAL FEATURES

## CORE MENU

The following section provides feature explanations and steps for global terminal settings. Due to the secure multiple application capabilities of the Dejavoov product each host application functions independently, it is for this reason that the Core System Menu is where you will find features that share information of all applications combined.

The Global Terminal features outlined in this section are as follows:

- Date & Time
- Printer Contrast
- Global Settlement
- Display Contrast
- Security Settings
- Loyalty
- Backlight Settings
- Communication Settings
- Training Mode
- Keyboard Beep
- Global Reports

**DOWNLOAD SOFTWARE:** For assistance with this menu option please contact your Help Desk or Merchant Services provider.

## EDIT THE DATE & TIME

Use the steps below to edit the Date & Time in your Dejavoov terminal. It is important to note that when a Dejavoov terminal is powered on it will prompt you to confirm the date and time is correct, when this happens you can press F2 to confirm it is correct or press F4 if it is incorrect and follow the terminal prompts to update to the correct date and time. The time in the terminal must always be entered in 24 hour clock (military) format.

Date is in MM (2 digit month) DD (2 digit day) YY (2 digit year) and Time is in Military format HH (2 digit hour) MM (2 digit minute) SS (2 digit second) both entries done without spaces.

STEP	ACTION	TOUCH SCREEN DISPLAY
1	<p><b>Non Touch Screen</b></p> <p>Press the F1 key on your terminal to reach the SERVICES menu. Scroll down using the ↑↓ arrow keys to locate and highlight CORE MENU. Once highlighted, press the green OK key.</p>	
	<p><b>Touch Screen</b></p> <p>Press the MENU icon at the bottom left hand corner of your home screen to reach your CORE MENU.</p>	
2	<p><b>Non Touch Screen</b></p> <p>Use the ↑↓ arrow keys to locate and highlight UTILITY. If prompted, input manager password, default is 1234.</p>	
	<p><b>Touch Screen</b></p> <p>Select UTILITY, listed in your CORE MENU, by pressing your terminal screen. If prompted, input manager password, default is 1234.</p>
