This form must be submitted to the state agency that is providing the contribution for the designated organization. The state agency providing the contribution should use this form to collect information from the designated organization. The information must be collected from the designated organization before the funds can be disbursed.

Contribution Information

Amount	State Agency Providing the Contribution	Purpose
\$250,000.00	SC Department of Health and Environmental Control	<small>To retrofit count old transfer station into a recycling center by finishing the concrete f</small>

Plan/Accounting of how these funds will be spent:

Description (Limit text to field size.)	Budget	Explanation (Limit text to field size.)
Building Improvements - Solid Waste Old Transfer Station	\$250,000.00	<small>Refinish broken concrete floor and enclose three sides of building that are currently open</small>

Grand Total **\$250,000.00**

Please Explain how these funds will be used to provide a public benefit:

This project will allow the county to keep recyclable materials (aluminum cans, glass bottles, plastic bottles and cardboard) out of the landfill. By reducing the amount of trash put into the landfill, the life of the landfill can be increased which will reduce the cost to maintain the landfill. The cost savings coupled with the revenues received from the sale of recyclable materials would allow the county operate the landfill at a lower cost and potentially pass on the savings to residents in the way of reduced fees.

To whom it may concern:
