Dear Mr Hayes,

This letter is written in response to your letter of 20 October 98, which requested that CSIRO confirm its position regarding our US Patent #5487069 with respect to the draft IEEE P802.11a standard. From the information available to CSIRO, it would appear that the patent may be needed to implement the standards.

In the event the proposed standard is adopted and the standard cannot be practiced without the use of the patent referenced above, CSIRO agrees upon written request to grant a nonexclusive license under such patent on a non discriminatory basis and on reasonable terms and conditions including its then-current royalty rates.

This letter does not grant any right to the IEEE with respect to CSIRO copyrights or other intellectual property rights that relate to the proposed standard. Any party interested in the license described above may write to Dr Terry Percival at the address on the letterhead.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Dennis N. Cooper", is written over a horizontal line.
