

[Fast Facts on U.S. Hospitals, 2024](#)

The American Hospital Association conducts an annual survey of hospitals in the United States. The data below, from the 2022 AHA Annual Survey, are a sample of what you will find in *AHA Hospital Statistics*, 2024 edition. The definitive source for aggregate hospital data and trend analysis, *AHA Hospital Statistics* includes current and historical data on utilization, personnel, indicators, and much more. The AHA has also created [Fast Facts Infographics](#) to provide visualizations for this data.

AHA Hospital Statistics is published annually by Health Forum, an affiliate of the American Hospital Association. To order copies of *AHA Hospital Statistics*, call (800) AHA-2626 or visit the [AHA online store](#). A complimentary [view-only online version](#) is also available.

--	--

Total Staffed Beds in All U.S. Hospitals	916,752
Staffed Beds in Community ¹ Hospitals	784,112
Total Admissions in All U.S. Hospitals	33,679,935
Admissions in Community ¹ Hospitals	31,555,807
Number of Rural Community Hospitals	1,810
Number of Urban Community Hospitals	3,319
Number of Community Hospitals in a System¹⁰	3,510

1. **Community hospitals** are defined as all nonfederal, short-term general, and other special hospitals. Other special hospitals include obstetrics and gynecology; eye, ear, nose, and throat; long term acute-care; rehabilitation; orthopedic; and other individually described specialty services. Community hospitals include academic medical centers or other teaching hospitals if they are nonfederal short-term hospitals. Excluded are hospitals not accessible by the general public, such as prison hospitals or college infirmaries.
2. **Other hospitals** include nonfederal long term care hospitals and hospital units within an institution such as a prison hospital or school infirmary. Long term care hospitals may be defined by different methods; here they include other hospitals with an average length of stay of 30 or more days.
3. **System** is defined by AHA as either a multihospital or a diversified single hospital system. A multihospital system is two or more hospitals owned, leased, sponsored, or contract managed by a central organization. Single, freestanding hospitals may be categorized as a system by bringing into membership three or more, and at least 25 percent, of their owned or leased non-hospital pre-acute or post-acute health care organizations.
