EXTERNAL SENDER: Caution opening links or attachments

Hi all,

I also want to add that due to construction, it's fine that you enter through the main entrance and park the truck under construction. However for cameras and other equipment, we have a freight elevator to make load-in easier. The garage is on E 6th St. and the location is indicated on the map. You'll need a building team member to open the door for you so let's connect Monday morning.

Have a great weekend,
Meg

Good afternoon,

Attached is a PDF of an aerial view of the State Historical Building detailing tent location, truck parking and crew parking. If you have any questions and need additional directions, feel free to contact Chris Kramer or myself.

Thanks,
Meg Witt
