Computer Assisted Personal Interviewing (CAPI) – Instrument Specifications

## Introduction

This document provides data users with the questions asked of respondents in the 2019 Consumer Expenditure Interview Questionnaire (CEQ). It is organized by questionnaire section and includes variable names, question text, response options, and skip instructions. As the contents of this document are instrument specifications, which show the organization of the survey from the perspective of the person interviewing the respondent, some content, including interviewer help options, icons, and CAPI-specific language, may not be relevant to data users.

This version is intended for use from April 2019 until March 2021.

<p>Data from the Consumer Expenditure Survey are used in a number of different ways by a variety of users. An important use of the survey by the Bureau of Labor Statistics is for the periodic revisions of the Consumer Price Index (CPI). Survey results are used to select new market basket of goods and services for the CPI, to determine the relative importance of CPI components and to derive new cost weights for the market basket. Government and private agencies use the data to study the welfare of particular segments of the population. Economic policymakers use the data to study the impact of policy changes in the welfare of different socioeconomic groups. Researchers use the data in a variety of studies, including those that focus on the spending behavior of different family types and historical spending trends.</p>

**The Bureau of Labor Statistics conducts the Consumer Expenditure Survey under the authority of Title 29 of the U.S. Code. Congress authorizes the financial support for the CE survey through Public Laws 94-439 and 95-205. The Bureau of the Census collects the CE data under the authority of Title 13, U.S. Code, Section 8b, which allows the Census Bureau to undertake surveys for other government agencies. Participation in the survey is voluntary. Under Title 13, the Census Bureau holds all information in strict confidence. We will not release information reported in the survey which would permit the identification of a household or any of its members to anyone outside of the Census Bureau.**
