

Brand Guidelines

Version 1.0

PART A

Defining our Brand

Who we are

Bhutan Telecom Limited (BTL) is one of the telecommunications and internet service providers in the Kingdom of Bhutan.

Besides fixed line telephony, it provides GSM Mobile services under its flagship brand B-Mobile, and internet services under the brand name of DrukNet. BTL is the only fixed line telephony service provider in the country.

Mission

Provide Innovative and Reliable ICT Services

Vision

To be the Company of choice

Brand Values

TEAMWORK

We are a team, sharing unique talents and skills to achieve a common goal of the company. We help each other succeed.

INTEGRITY

We value in conducting our business with honesty, transparency, accountability, and highest level of corporate ethics.

GROWTH

We believe and commit to create an enabling environment for employees to come up with new innovative ideas, which will contribute to the employees and the company's growth. To continuously develop human capacities and capabilities through education and training of employees.

EXCELLENCE

We believe and commit to strive for the highest possible standards while conducting business with continuous improvement, constantly seeking solutions to problems. To deliver quality services to meet customer expectations (external) and exerting efforts to obtain feedback from customers to understand their needs and wants.

RESPONSIVENESS

We believe and commit to respond swiftly to the fast-changing market environment and requirements/feedbacks of customers. We should be able to anticipate emerging needs of the customers and market dynamics.

Brand History

BTL came into existence on July 1, 2000 as a fully state-owned company, with the corporatization of the erstwhile Department of Telecommunications which was established in 1970. The first rudimentary works in building a telecommunication network in the country was taken up in 1963 to aid development works of the First Five Year Plan for modern economic development of the country. From its modest origins, BTL has come a long way, and it now boasts an optical fiber backbone network and fully digital microwave network spanning the whole nation.

BTL has left no stone unturned in its efforts towards fulfilling both its commercial and social mandates. Today, BTL's revenue and customer base are growing at a sustained pace. B-Mobile has taken its services to even the remotest corners of the country where commercial viability is out of the question and its network has covered all 205 Gewogs (Blocks) in the country.

Tone of Voice

The tone of voice is critical, influencing how a brand is perceived and connects with its audience.

Maintaining a consistent tone establishes a memorable and distinctive brand identity.

Confident not pretentious

Optimistic not ignorant

Ambitious not unrealistic

Crafty not devious

Authentic not exploitative

Words we like:

1. We are pleased to...
2. Thank you for your patience.
3. Dear valued customers,
4. Our sincere apologies.
5. Have a pleasant day.

Words not encouraged:

1. We have to...
2. Thanks for waiting.
3. Attention customers,
4. Sorry for the inconvenience.
5. Goodbye.

PART B

Logo Design

Primary Logo

Logo Inverse

The logo has two reversed versions that is used when either the background color or background image is darker.

In such instances, BT icon remains the same, while the DHI word mark is turned from black to white (#FFFFFF).

However, in order to keep the logo as readable as possible, the white monochrome version should be used if the background image is complex. (Refer Logo Monochromatic)

Logo Monochromatic

Logo Variations

The iconic monogram logo made with the letters BT is the Primary Logo.

The Secondary Logo is a combination of the Primary Logo and the wordmark Bhutan Telecom in 2 lines.

The Official Logo is a landscape lockup of the Primary Logo with the wordmark in both Dzongkha & English.

Logo Misuse X

Do not change the alignment

Do not change the spacing

Do not warp up the logo

Do not rotate the logo

Do not stretch out the logo

Do not use drop shadow

Do not use low resolution logo

Do not change the brand colors

Do not outline or make strokes of the logo

Do not squeeze the logo

Do not use 3D effect on the logo

Do not use bounding box around the logo

Here, we break down the use of different logo lockups for BT.

The BT logo mark is used in a series of logo lockups to represent the various programs, departments, teams, groups, initiatives and partnership of our organization.

Our lockup categories are primary, secondary, official and partnership, which establish identities for all use cases.

Logo Construction

The iconic monogram logo made with the letters BT is the primary logo. The letters are customized to fit the ring around it.

For an optimal presentation, the logotype should maintain enough white space around it. A safe zone must be used and no other elements should interfere with this space (other logos, icons, pictures, etc.) except for the DHI work mark.

A  Company

Official Lockup

This is the Official Logo Lockup.

We lock up the BT icon with the name beside it. The name should appear in Gilroy Bold. The dzongkha font used is DDC Uchen.

Secondary Lockup

This is the Secondary Logo Lockup.

We lock up the BT icon with the name beside it.
The name should appear in Gilroy Bold.

Partnership Lockup

The partnership lockup is used for communication around approved BT partnerships.

We lock up the BT Primary logo with a partner logo, placing the BT logo either to the left or top of the partner's logo. We add clear space between the logos equal to the size of the monogram icon divided by 3.

Both logos should feel of equal size. Partner Logos should be aligned to the optical baseline of the BT logo.

Brand Tagline

The brand tagline is "Always there for you!" set in Sedgwick Ave Regular.

When using the tagline it can be placed in one line under the primary logo.

Always there for you!

Always there for you!
