

*Be prepared.*  
*Be your best self.*  
*Have an impact.*

Greatness is always under construction. Being consistent with your daily disciplines and habits will set you up for success. Here are questions to reflect on daily.

What are two things I am grateful for today?

Where did I have a positive impact?

Did I plan out my day?

Did I live out my values?

When was I at my best?

Where will I start tomorrow?
