1 (4) The estimates of both the cost of the con-

4 are realistic.

5 (5) The use of such a contract will promote the
6 national security of the United States.

7 (6) During the fiscal year in which such con-

18 use of a contract authorized under subsection (a)
19 are realistic.

20 (6) The use of such a contract will promote the
21 national security of the United States.

16 **SEC. 530. SENSE OF CONGRESS REGARDING WOMEN INVOL-**
17 **UNTARILY SEPARATED FROM THE ARMED**
18 **FORCES DUE TO PREGNANCY OR PARENT-**
19 **HOOD.**

20 (a) FINDINGS.—Congress finds the following:

21 (1) In June 1948, Congress enacted the Wom-
22 en's Armed Services Integration Act of 1948, which
23 formally authorized the appointment and enlistment
24 of women in the regular components of the Armed
25 Forces.

1 (2) With the expansion of the Armed Forces to
2 include women, the possibility arose for the first
3 time that members of the regular components of the
4 Armed Forces could become pregnant.

5 (3) The response to such possibilities and actu-
6 alities was Executive Order 10240, signed by Presi-
7 dent Harry S. Truman in 1951, which granted the
8 Armed Forces the authority to involuntarily separate
9 or discharge a woman if she became pregnant, gave
10 birth to a child, or became a parent by adoption or
11 a stepparent.

12 (4) The Armed Forces responded to the Execu-
13 tive order by systematically discharging any woman
14 in the Armed Forces who became pregnant.

15 (5) The Armed Forces were required to offer
16 women who were involuntarily separated or dis-
17 charged due to pregnancy the opportunity to request
18 retention in the military.

19 (6) The Armed Forces may not have provided
20 required separation benefits, counseling, or assist-
21 ance to the members of the Armed Forces who were
22 separated or discharged due to pregnancy.

23 (7) Thousands of members of the Armed
24 Forces were involuntarily separated or discharged
25 from the Armed Forces as a result of pregnancy.

1 (8) Such involuntary separation or discharge
2 from the Armed Forces on the basis of pregnancy
3 was challenged in Federal district court by Steph-
4 anie Crawford in 1975, whose legal argument stated
5 that this practice violated her constitutional right to
6 due process of law.

7 (9) The Court of Appeals for the Second Cir-
8 cuit ruled in Stephanie Crawford's favor in 1976
9 and found that Executive Order 10240 and any reg-
10 ulations relating to the Armed Forces that made
11 separation or discharge mandatory due to pregnancy
12 were unconstitutional.

13 (10) By 1976, all regulations that permitted in-
14 voluntary separation or discharge of a member of
15 the Armed Forces because of pregnancy or any form
16 of parenthood were rescinded.

17 (11) Today, women comprise 17 percent of the
18 Armed Forces, and many are parents, including 12
19 percent of whom are single parents.

20 (12) While military parents face many hard-
21 ships, today's Armed Forces provide various lengths
22 of paid family leave for mothers and fathers, for
23 both birth and adoption of children.

24 (b) SENSE OF CONGRESS.—It is the sense of Con-
25 gress that women who served in the Armed Forces before

1 February 23, 1976, should not have been involuntarily
2 separated or discharged due to pregnancy or parenthood.

9 “(c) RESPONSE TO COMBAT EMERGENCIES AND
10 CERTAIN URGENT OPERATIONAL NEEDS.—

11 “(1) DETERMINATION OF NEED FOR URGENT
12 ACQUISITION AND DEPLOYMENT.—(A) In the case of
13 any capability that, as determined in writing by the
14 Secretary of Defense, is urgently needed to eliminate
15 a documented deficiency that has resulted in combat
16 casualties, or is likely to result in combat casualties,
17 the Secretary may use the procedures developed
18 under this section in order to accomplish the urgent
19 acquisition and deployment of the needed capability.

20 “(B) In the case of any capability that, as de-
21 termined in writing by the Secretary of Defense, is
22 urgently needed to eliminate a documented defi-
23 ciency that impacts an ongoing or anticipated con-
24 tingency operation and that, if left unfulfilled, could
25 potentially result in loss of life or critical mission

1 failure, the Secretary may use the procedures devel-
2 oped under this section in order to accomplish the
3 urgent acquisition and deployment of the needed ca-
4 pability.

5 “(C)(i) In the case of any cyber capability that,
6 as determined in writing by the Secretary of De-

21 urgent acquisition and deployment of such capa-
22 bility. In a case in which such capability cannot be
23 acquired without an extensive delay, the senior offi-
24 cial shall require that an interim solution be imple-

8 a determination that funds are necessary to imme-
9 diately initiate a project under a section 804 rapid
10 acquisition pathway based on a compelling national
11 security need, the Secretary may use any funds
12 available to the Department of Defense to urgently
13 acquire and deploy such capability or immediately
14 initiate such project, respectively, if the determina-
15 tion includes a written finding that the use of such
16 funds is necessary to address in a timely manner the

20 section 804 pathway, respectively.

22 (c) REPEAL.—Section 1244 of the National Defense
23 Authorization Act for Fiscal Year 2010 (Public Law 111–
24 84; 123 Stat. 2541) is repealed.

1 **SEC. 1272. SENSE OF CONGRESS ON NATO AND UNITED**
2 **STATES DEFENSE POSTURE IN EUROPE.**

3 It is the sense of Congress as follows:

4 (1) The Russian Federation's further invasion
5 of Ukraine poses a grave threat to United States se-
6 curity and interests around the globe and to the
7 rules-based international order, including the North
8 Atlantic Treaty Organization (NATO).

9 (2) The Russian Federation has demonstrated
10 a complete disregard for the safety of civilians dur-
11 ing its unlawful and unprovoked invasion of
12 Ukraine, which has involved indiscriminate bombing
13 of civilian areas and executions of noncombatants.

14 (3) The United States stands with the people of
15 Ukraine and condemns the heinous acts committed
16 by the Russian Federation against them, and Con-
17 gress strongly supports continued assistance to
18 Ukraine to sustain its ability to repel Russian inva-
19 sion forces and continue to retake its sovereign terri-
20 tory.

21 (4) NATO remains the strongest and most suc-
22 cessful military alliance in the world, founded on a
23 commitment by its members to uphold the principles
24 of democracy, individual liberty, and the rule of law.
25 The NATO alliance has grown more robust and
26 more united in response to Russia's 2022 further in-

1 vasion of Ukraine, as allies have enhanced their de-
2 terrence and defense posture, and continued to send
3 military aid to bolster Ukraine's defenses.

4 (5) The United States—

5 (A) strongly supports the path of Sweden
6 and Finland toward NATO membership, as evi-
7 denced by the overwhelming bipartisan Senate
8 vote providing advice and consent to the ratifi-
9 cation of the Protocols of the North Atlantic
10 Treaty of 1949 on the Accession of the Repub-
11 lic of Finland and the Kingdom of Sweden;

12 (B) urges all NATO allies who have not
13 ratified their accession to do so as soon as pos-
14 sible;

15 (C) reaffirms its ironclad commitment to
16 NATO as the foundation of transatlantic secu-
17 rity and to upholding its obligations under the
18 North Atlantic Treaty, including Article 5; and

19 (D) encourages NATO members to move
20 swiftly to meet their commitments made at the
21 June 2022 NATO Summit to expand NATO's
22 multinational battle groups and enhance mili-
23 tary posture on NATO's eastern flank, and to
24 urgently continue progress on meeting their
25 Wales Pledge commitments, capability targets,

1 contributions to NATO missions and oper-
2 ations, and resilience commitments.

3 (6) America's European allies and partners
4 have—

5 (A) made significant contributions to
6 Ukraine's defense against the Russian invasion,
7 including critical military, economic, and hu-
8 manitarian aid, sanctions, and export controls,
9 to erode Russia's ability to sustain its aggres-
10 sion; and

11 (B) welcomed millions of Ukrainian refu-
12 gees forced to flee their homeland.

13 (7) The United States must continue to work
14 with these allies and partners to sustain this sup-
15 port, to collectively reconstitute weapons stocks, and
16 to maintain unified resolve to reduce threats to crit-
17 ical infrastructure ranging from Russia's
18 weaponization of energy to China's predatory invest-
19 ments in transportation and telecommunications in-
20 frastructure.

21 (8) The United States should develop and im-
22 plement a long-term plan to adapt United States
23 posture in Europe to the altered threat environment.
24 The elevated United States posture currently in Eu-
25 rope is crucial in the current threat environment,

1 and the United States posture changes announced
2 during the June 2022 NATO Summit are important
3 steps, including the establishment of the first perma-
4 nently stationed headquarters in Poland, the com-
5 mitment to maintain a rotational brigade combat
6 team and headquarters in Romania, enhanced rota-
7 tions to the Baltic countries, and the forward-sta-
8 tioning of two additional destroyers in Rota, Spain.

9 (9) European Deterrence Initiative (EDI) in-
10 vestments have proven crucial to United States and
11 NATO abilities to rapidly reinforce the European
12 theater leading up to and during Russia's further in-
13 vasion of Ukraine. The United States should con-
14 tinue robust investments through EDI, including
15 further enhancing United States posture in Europe
16 and maintaining a committed schedule of exercises
17 with allies.

18 (10) The Black Sea is critical to United States
19 interests and to the security of NATO in the region,
20 given Russia's unprovoked and unjustified war in
21 Ukraine and Russia's attempts to directly intimi-
22 date, coerce, and otherwise influence countries in
23 this region. These allies' and partners' security will
24 have major consequences for broader European secu-
25 rity and collective efforts to enhance Black Sea

1 countries' defense and resilience capabilities are es-
2 sential. In addition, the United States and NATO
3 should consider adopting robust intergovernmental
4 and interagency strategies for the Black Sea, to fa-
5 cilitate further collaboration among all countries in
6 the region.

7 (11) Estonia, Latvia, and Lithuania play a crit-
8 ical role in strategic efforts to continue to deter Rus-
9 sia.

10 (12) The United States should continue to pur-
11 sue efforts consistent with the comprehensive, multi-
12 lateral Baltic Defense Assessment conducted by the
13 Department of Defense. Robust support to accom-
14 plish United States strategic objectives, including by
15 providing continued assistance to the Baltic coun-
16 tries through security cooperation, including co-
17 operation referred to as the Baltic Security Initiative
18 pursuant to sections 332 and 333 of title 10, United
19 States Code, should continue to be prioritized in the
20 years to come. Specifically, such assistance should
21 include the continuation of—

22 (A) enhancements to critical capabilities
23 that will strengthen Baltic security as well as
24 strengthen NATO's deterrence and defense pos-
25 ture, including integrated air and missile de-

1 fense, maritime domain awareness, long-range
2 precision fires, and command and control;

3 (B) efforts to enhance interoperability
4 among Estonia, Latvia, and Lithuania and with
5 NATO;

6 (C) infrastructure and other host-country
7 support improvements that will enhance United
8 States and allied military mobility across the
9 region;

10 (D) efforts to improve resilience to hybrid
11 and cyber threats in Estonia, Latvia, and Lith-
12 uania; and

13 (E) support for planning and budgeting ef-
14 forts of Estonia, Latvia, and Lithuania that are
15 regionally synchronized.

16 (13) It is in the United States interest to sup-
17 port efforts to enhance security and stability in the
18 Western Balkans. The United States should con-
19 tinue its efforts to work with Western Balkans allies
20 and partners to build interoperability and support
21 institutional reforms. The United States should also
22 support those countries' efforts to resist
23 disinformation campaigns, predatory investments,
24 and other means by which Russia and China may
25 seek to influence this region.

1 (14) The United States should continue to work
2 closely with European allies and partners to counter
3 growing malign activities by the People's Republic of
4 China across Europe, in the Indo-Pacific, and be-
5 yond.

5 to the date of enactment of this Act; and

6 (2) any reference in that Act to the Secretary
7 of Agriculture shall be considered to be a reference
8 to the Secretary of the Interior.

9 (d) LIVESTOCK.—The grazing of livestock in a wil-

16 is characterized by—

17 (i) groundwater subject to local and

19 (ii) unconfined and artesian condi-
20 tions;

21 (D) the wilderness areas are generally not
22 suitable for use or development of new water re-
23 source facilities; and

24 (E) because of the unique nature and hy-
25 drology of the desert land in the wilderness

1 areas, it is possible to provide for proper man-
2 agement and protection of the wilderness areas
3 and other values of land in ways different from
4 those used in other laws.

5 (2) STATUTORY CONSTRUCTION.—Nothing in

12 dropower projects, transmission and other
13 ancillary facilities, and other water diver-
14 sion, storage, and carriage structures.

15 (ii) EXCLUSION.—In this paragraph,
16 the term “water resource facility” does not
17 include wildlife guzzlers.

18 (B) RESTRICTION ON NEW WATER RE-
19 SOURCE FACILITIES.—Except as otherwise pro-
20 vided in this section, on and after the date of
21 enactment of this Act, neither the President nor

23 United States shall fund, assist, authorize, or
24 issue a license or permit for the development of

1 any new water resource facility within a wilder-
2 ness area.

4 ance with section 4(d)(1) of the Wilderness Act (16 U.S.C.
5 1133(d)(1)), the Secretary may take such measures in a

7 insects, and diseases (including, as the Secretary deter-
8 mines to be appropriate, the coordination of the activities
9 with a State or local agency).

10 (h) DATA COLLECTION.—Subject to such terms and
11 conditions as the Secretary may prescribe, nothing in this
12 section precludes the installation and maintenance of hy-
13 drologic, meteorological, or climatological collection de-
14 vices in a wilderness area, if the Secretary determines that
15 the devices and access to the devices are essential to flood
16 warning, flood control, or water reservoir operation activi-
17 ties.

18 (i) MILITARY OVERFLIGHTS.—Nothing in this sec-
19 tion restricts or precludes—

20 (1) low-level overflights of military aircraft over
21 a wilderness area, including military overflights that
22 can be seen or heard within a wilderness area;

13 of the purposes and principles of the Wilderness Act
14 (16 U.S.C. 1131 et seq.), the Secretary may conduct
15 any management activities in the wilderness areas
16 that are necessary to maintain or restore fish and
17 wildlife populations and the habitats to support the
18 populations, if the activities are carried out—

19 (A) consistent with relevant wilderness
20 management plans; and

21 (B) in accordance with—

22 (i) the Wilderness Act (16 U.S.C.
23 1131 et seq.); and

24 (ii) appropriate policies, such as those
25 set forth in Appendix B of the report of

2 fairs of the House of Representatives ac-
3 companying H.R. 2570 of the 101st Con-
4 gress (House Report 101–405), including
5 the occasional and temporary use of motor-
6 ized vehicles, if the use, as determined by
7 the Secretary, would promote healthy, via-
8 ble, and more naturally distributed wildlife
9 populations that would enhance wilderness
10 values with the minimal impact necessary
11 to reasonably accomplish those tasks.

12 (3) EXISTING ACTIVITIES.—In accordance with
13 section 4(d)(1) of the Wilderness Act (16 U.S.C.
14 1133(d)(1)) and in accordance with appropriate poli-

23 PROJECTS.—Subject to subsection (f), the Secretary
24 shall authorize structures and facilities, including ex-
25 isting structures and facilities, for wildlife water de-

1 development projects, including guzzlers, in the wilder-
2 ness areas if—

3 (A) the structures and facilities would, as
4 determined by the Secretary, enhance wilder-
5 ness values by promoting healthy, viable, and
6 more naturally distributed wildlife populations;
7 and

8 (B) the visual impacts of the structures
9 and facilities on the wilderness areas can rea-
10 sonably be minimized.

11 (5) HUNTING, FISHING, AND TRAPPING.—

12 (A) IN GENERAL.—The Secretary may des-
13 ignate areas in which, and establish periods
