

System of Records notice (85 FR 14226, March 11, 2020).

Documents mentioned in this NPRM as being available in the docket, and all public comments, will be in our online docket at <https://www.regulations.gov> and can be viewed by following that website's instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard is proposing to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

- 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

- 2. Add § 165.T13–0247 to read as follows:

§ 165.T13–0247 Safety Zone[s]; Safety Zone; I–5 Bridge Construction Project, Columbia River, Vancouver, WA.

(a) *Location.* The following area is a safety zone: All navigable waters of the Columbia River, surface to bottom, encompassed by a line connecting the following points beginning at the shoreline at 45°37'17.7" N/122°40'31.4" W, southwest to 45°37'12.1" N/122°40'35.0" W, southeast to 45°37'08.8" N/122°40'22.1" W, thence northeast to 45°37'15.0" N/122°40'18.3" W, and along the shoreline back to the beginning point.

(b) *Definitions.* As used in this section, *designated representative* means any Coast commissioned, warrant, or petty officer who has been authorized by the Captain of the Port Columbia River (COTP) to act on his behalf, or a Federal, State, and local officer designated by or assisting the Captain of the Port Columbia River in the enforcement of the safety zone.

(c) *Regulations.* (1) Under the general safety zone regulations in subpart C of this part, you may not enter the safety zone described in paragraph (a) of this section unless authorized by the COTP or the COTP's designated representative.

(2) Vessel operators desiring to enter or operate within the safety zone may contact the COTP's on-scene designated representative by calling (503) 209–2468

or the Sector Columbia River Command Center on Channel 16 VHF–FM. Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative.

(d) *Enforcement period.* This safety zone is in effect from 12:01 on September 6, 2020 through 11:59 p.m. on September 26, 2020. It will be subject to enforcement this entire period unless the Captain of the Port, Columbia River determines it is no longer needed. The Coast Guard will inform mariners of any change to this period of enforcement via Broadcast Notice to Mariners.

Dated: May 12, 2020.

J.C. Smith,

Captain, U.S. Coast Guard, Captain of the Port Columbia River.

BILLING CODE 9110–04–P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket No. 2020–11]

Exemptions to Permit Circumvention of Access Controls on Copyrighted Works

AGENCY: U.S. Copyright Office, Library of Congress.

ACTION: Notification of inquiry and request for petitions.

SUMMARY: The United States Copyright Office is initiating the eighth triennial rulemaking proceeding under the Digital Millennium Copyright Act (“DMCA”), to consider possible temporary exemptions to the DMCA’s prohibition against circumvention of technological measures that control access to copyrighted works. In this proceeding, the Copyright Office is again providing a streamlined procedure for the renewal of exemptions that were granted during the seventh triennial rulemaking. If renewed, those current exemptions would remain in force for an additional three-year period (October 2021–October 2024). Members of the public seeking the renewal of current exemptions should submit petitions as described below; parties opposing such renewal will then have the opportunity to file comments in response. The Office is also accepting petitions for new exemptions to engage in activities not currently permitted by existing exemptions, which may include proposals that expand upon a current exemption. Those petitions, and any

renewal petitions that are meaningfully opposed, will be considered pursuant to a more comprehensive rulemaking process similar to that of the seventh rulemaking, including three rounds of written comment, followed by public hearings, which may be conducted virtually.

DATES: Written petitions for renewal of current exemptions must be received no later than 11:59 p.m. Eastern Time on July 22, 2020. Written comments in response to any petitions for renewal must be received no later than 11:59 p.m. Eastern Time on September 8, 2020. Written petitions for new exemptions must be received no later than 11:59 p.m. Eastern Time on September 8, 2020.

ADDRESSES: Written petitions for renewal of current exemptions must be completed using the form provided on the Office’s website at <https://www.copyright.gov/1201/2021/renewal-petition.pdf>. Written petitions proposing new exemptions must be completed using the form provided on the Office’s website at <https://www.copyright.gov/1201/2021/new-petition.pdf>. The Copyright Office is using the [regulations.gov](https://www.regulations.gov) system for the submission and posting of public petitions and comments in this proceeding. All petitions and comments are therefore to be submitted electronically through [regulations.gov](https://www.regulations.gov). Specific instructions for submitting petitions and comments are available on the Copyright Office website at <https://www.copyright.gov/1201/2021>. If electronic submission is not feasible, please contact the Office using the contact information below for special instructions.

FOR FURTHER INFORMATION CONTACT: Regan A. Smith, General Counsel and Associate Register of Copyrights, regans@copyright.gov or Kevin R. Amer, Deputy General Counsel, kamer@copyright.gov. They can be reached by telephone at (202) 707–3000.

SUPPLEMENTARY INFORMATION:

I. The Digital Millennium Copyright Act and Section 1201

The Digital Millennium Copyright Act (“DMCA”)¹ has played a pivotal role in the development of the modern digital economy. Enacted by Congress in 1998 to implement the United States’ obligations under two international treaties,² the DMCA was intended to

¹ Public Law 105–304, 112 Stat. 2860 (1998).

² WIPO Copyright Treaty, Dec. 20, 1996, 36 I.L.M. 65 (1997); WIPO Performances and Phonograms Treaty, Dec. 20, 1996, 36 I.L.M. 76 (1997).

foster the growth and development of a thriving, innovative, and flexible digital marketplace by making digital networks safe places to disseminate and use copyrighted materials.³ It did this by, among other things, providing new legal protections for copyrighted content made available in digital formats.⁴

These protections, codified in section 1201 of title 17, United States Code, seek to balance the interests of copyright owners and users, including the personal interests of consumers, in the digital environment.⁵ Section 1201 protects technological measures (also called technological protection measures or TPMs) used by copyright owners to prevent unauthorized access to or use of their works.⁶ Section 1201 contains three separate protections for TPMs. First, it prohibits circumvention of technological measures employed by or on behalf of copyright owners to protect access to their works (also known as access controls). Access controls include, for example, a password requirement limiting access to an online service to paying customers or an authentication code in a video game console to prevent the playing of pirated copies. Second, the statute prohibits trafficking in devices or services primarily designed to circumvent access controls. Finally, it prohibits trafficking in devices or services primarily designed to circumvent TPMs used to protect the exclusive rights of the copyright owner of a work (also known as copy controls). Copy controls protect against unauthorized uses of a copyrighted work once access has been lawfully obtained. They include, for example, technology preventing the copying of an e-book after it has been downloaded to a user's device. Because title 17 already provides remedies for copyright infringement, there is no corresponding ban on the act of circumventing a copy control.⁷ All these prohibitions supplement the preexisting rights of copyright owners under the Copyright Act of 1976 by establishing separate and distinct causes of action

independent of any infringement of copyright.⁸

Section 1201 contains a number of specific exemptions to these prohibitions, to avoid curtailing legitimate activities such as security testing, law enforcement activities, or the protection of personally identifying information.⁹ In addition, to accommodate changing marketplace conditions and ensure that access to copyrighted works for other lawful purposes is not unjustifiably diminished,¹⁰ the statute provides for a rulemaking proceeding where temporary exemptions to the prohibition on circumventing access controls may be adopted by the Librarian of Congress, upon the recommendation of the Register of Copyrights in consultation with the Assistant Secretary for Communications and Information of the Department of Commerce.¹¹ In contrast to the permanent exemptions set out by statute, exemptions adopted pursuant to the rulemaking must be reconsidered every three years.¹² By statute, the triennial rulemaking process only addresses the prohibition on circumvention of access controls; the statute does not grant the authority to adopt exemptions to the anti-trafficking provisions.¹³

For an exemption to be granted through the triennial rulemaking, it must be established that “persons who are users of a copyrighted work are, or are likely to be in the succeeding 3-year period, adversely affected by the prohibition . . . in their ability to make noninfringing uses under [title 17] of a particular class of copyrighted works.”¹⁴ In evaluating the evidence, several statutory factors must be weighed: “(i) the availability for use of copyrighted works; (ii) the availability for use of works for nonprofit archival, preservation, and educational purposes; (iii) the impact that the prohibition on the circumvention of technological measures applied to copyrighted works has on criticism, comment, news reporting, teaching, scholarship, or research; (iv) the effect of circumvention of technological measures on the market for or value of copyrighted works; and

(v) such other factors as the Librarian considers appropriate.”¹⁵

II. Overview of the Rulemaking Process

To assess whether the implementation of access controls impairs the ability of individuals to make noninfringing uses of copyrighted works, the Copyright Office solicits exemption proposals from the public and develops a comprehensive administrative record using information submitted by interested parties.¹⁶ Based on that record, the Register provides a written recommendation to the Librarian concerning which exemptions are warranted based on that record. The recommendation includes proposed regulatory text for adoption and publication in the **Federal Register**.

The rulemaking process for the eighth triennial proceeding will be generally the same as the process followed in the seventh proceeding. This includes the streamlined procedure introduced in the seventh proceeding through which members of the public may petition for current temporary exemptions that were granted during the previous rulemaking to remain in force for an additional three-year period (October 2021–October 2024).

With this notification of inquiry, the Copyright Office is initiating the petition phase of the rulemaking, calling for the public to submit petitions both to renew current exemptions, as well as any comments in support of or opposition to such petitions, and to propose new exemptions. This two-track petition process is described below. After the close of the petition phase, the Office will publish a notice of proposed rulemaking (“NPRM”) to initiate the next phase of the rulemaking process, as described below.

Video tutorials explaining section 1201 in general and the rulemaking process can be found on the Office's 1201 rulemaking web page at <https://www.copyright.gov/1201>.

III. Process for Seeking Renewal of Current Exemptions

In the prior rulemaking, the Copyright Office introduced a streamlined process

to facilitate the renewal of previously adopted exemptions for which there was no meaningful opposition.¹⁷ This process was initiated shortly after the Office concluded a comprehensive public policy study of section 1201.¹⁸ In that study, following careful analysis of relevant legal principles and noting a broad consensus of stakeholders supporting an expedited process to consider renewal of such exemptions, the Office concluded that “the statute itself requires that exemptions cannot be renewed automatically, presumptively, or otherwise, without a fresh determination concerning the next three-year period. . . . [A] determination must be made specifically for each triennial period.”¹⁹ The Office further determined, however, that “the statutory language appears to be broad enough to permit determinations to be based upon evidence drawn from prior proceedings, but only upon a conclusion that this evidence remains reliable to support granting an exemption in the current proceeding.”²⁰

Those seeking re-adoption of a current exemption may petition for renewal by submitting the Copyright Office’s required fillable form, available on the Office’s website at <https://www.copyright.gov/1201/2021/renewal-petition.pdf>. This form is for renewal petitions only. The Office has a separate form, discussed below, for petitions for new exemptions.

Scope of Renewal. Renewal may only be sought for current exemptions as they are currently formulated, without modification. This means that if a proponent seeks to engage in any activities not currently permitted by an existing exemption, a petition for a new exemption must be submitted. Where a petitioner seeks to engage in activities that expand upon a current exemption, the Office recommends that the petitioner submit both a petition to renew the current exemption, and, separately, a petition for a new exemption. In such cases, the petition for a new exemption need only discuss those issues relevant to the proposed expansion of the current exemption. If the Office recommends re-adoption of the current exemption, then only those discrete aspects relevant to the expansion will be subject to the more comprehensive rulemaking procedure described below.

Automatic Reconsideration. If the Office declines to recommend renewal

of a current exemption (as discussed below), the petition to renew will automatically be treated as a petition for a new exemption, and will be considered pursuant to the more comprehensive rulemaking proceeding. If a proponent has petitioned both for renewal and an expansion, and the Office declines to recommend renewal, the entire exemption (*i.e.*, the current exemption along with the proposed expansion) will automatically be considered under the more comprehensive proceeding.

Petition Form and Contents. The petition to renew is a short form designed to let proponents identify themselves and the relevant exemption, and to make certain sworn statements to the Copyright Office concerning the existence of a continuing need and justification for the exemption. Use of the Office’s prepared form is mandatory, and petitioners must follow the instructions contained in this notice and on the petition form. A separate petition form must be submitted for each current exemption for which renewal is sought. This is required for reasons of administrability and so it is clear to which exemption the stated basis for renewal applies. While a single petition may not encompass more than one current exemption, the same party may submit multiple petitions.

The petition form has four components:

1. Petitioner identity and contact information. The form asks for each petitioner (*i.e.*, the individual or entity seeking renewal) to provide its name and the name of its representative, if any, along with contact information. Any member of the public capable of making the sworn declaration discussed below may submit a petition for renewal, regardless of prior involvement with past rulemakings. Petitioners and/or their representatives should be reachable through the provided contact information for the duration of the rulemaking proceeding. Multiple petitioning parties may jointly file a single petition.

2. Identification of the current exemption that is the subject of the petition. The form lists all current exemptions granted during the last rulemaking (codified at 37 CFR 201.40), with a check box next to each. The exemption for which renewal is sought is to be identified by marking the appropriate checkbox.

3. Explanation of need for renewal. The petitioner must provide a brief explanation summarizing the basis for claiming a continuing need and justification for the exemption. The required showing is meant to be

minimal. The Office anticipates that petitioners will provide a paragraph or two detailing this information, but there is no page limit. While it is permissible to attach supporting documentary evidence as exhibits to the petition, it is not necessary. The Office’s petition form includes an example of what it regards as a sufficient explanation.

4. Declaration and signature. One of the petitioners named in the petition must sign a declaration attesting to the continued need for the exemption and the truth of the explanation provided in support. Where the petitioner is an entity, the declaration must be signed by an individual at the organization having appropriate personal knowledge to make the declaration. The declaration may be signed electronically.

For the attestation to be trustworthy and reliable, it is important that the petitioner make it based on his or her own personal knowledge and experience. This requirement should not be burdensome, as a broad range of individuals have a sufficient level of knowledge and experience. For example, a blind individual having difficulty finding and purchasing e-books with appropriate assistive technologies would have such personal knowledge and experience to make the declaration with regard to the assistive technology exemption; so would a relevant employee or volunteer at an organization like the American Foundation for the Blind, which advocates for the blind, visually impaired, and print disabled, is familiar with the needs of the community, and is well-versed specifically in the e-book accessibility issue. It would be improper, however, for a general member of the public to petition for renewal if he or she knows nothing more about matters concerning e-book accessibility other than what he or she might have read in a brief newspaper article, or simply opposes the use of digital rights management tools as a matter of general principle.

The declaration also requires affirmation that, to the best of the petitioner’s knowledge, there has not been any material change in the facts, law, or other circumstances set forth in the prior rulemaking record (available at <https://www.copyright.gov/1201/2018>) that originally demonstrated the need for the selected exemption, such that renewal of the exemption would not be justified. By “material change,” the Office means a significant change in the underlying conditions that originally justified the exemption when it was first granted, such that the appropriateness of continuing the exemption for another three years based on that original

¹⁷ 82 FR 29804 (June 30, 2017).

¹⁸ See generally Section 1201 Study.

¹⁹ *Id.* at 142.

²⁰ *Id.* at 143.

justification is called into question. This attestation tells the Office that the prior rulemaking record from when the current exemption was originally granted is still ripe and applicable in considering whether or not the same exemption is appropriate for the subsequent triennial period. Only after finding the old record to still be germane can the Office rely upon it in deciding, pursuant to 17 U.S.C. 1201(a)(1)(C), whether to recommend renewal.

C. Comments in Response to a Petition To Renew an Exemption

Any interested party may respond to a petition to renew a current exemption by submitting comments. While the primary purpose of these comments is to allow for opposition to renewing the exemption, comments in support of renewal are also permitted. Although no form is being provided for such comments, the first page of any responsive comments must clearly identify which exemption's re-adoption is being supported or opposed. While participants may comment on more than one exemption, a single submission may not address more than one exemption. For example, a party that wishes to oppose the renewal of both the wireless device unlocking exemption and the jailbreaking exemption must file separate comments for each.²¹ The Office acknowledges that this format may require some parties to repeat certain general information (e.g., about their organization) across multiple submissions, but the Office believes that the administrative benefits of creating self-contained, separate records for each exemption will be worth the modest amount of added effort involved.

Opposition to a renewal petition must be meaningful, such that, from the evidence provided, it would be reasonable for the Office to conclude that the prior rulemaking record and any further information provided in the renewal petition are insufficient to support recommending renewal of an exemption. For example, a change in case law might affect whether a particular use is noninfringing, new technological developments might affect the availability for use of copyrighted works, or new business models might affect the market for or value of

copyrighted works. Such evidence could cause the Office to conclude that the prior evidentiary record is too stale to rely upon for an assessment affecting the subsequent three-year period. The Office may also consider whether opposition is meaningful only as to part of a current exemption.

Unsupported conclusory opinion and speculation will not be enough for the Office to refuse to recommend renewing an exemption it would have otherwise recommended in the absence of any opposition, or to subject consideration of this exemption to the more comprehensive rulemaking procedure.

IV. Process for Seeking New Exemptions

Those seeking to engage in activities not currently permitted by an existing exemption, including activities that expand upon a current exemption, may propose a new exemption by filing a petition using the Copyright Office's required fillable form, available on the Office's website at <https://www.copyright.gov/1201/2021/new-petition.pdf>. Use of the Office's prepared form is mandatory, and petitioners must follow the instructions contained in this notice and on the petition form. As in the seventh rulemaking, a separate petition must be filed for *each* proposed exemption. The Office anticipates that it will, once again, receive a significant number of submissions, and requiring separate submissions for each proposed exemption will help both participants and the Office keep better track of the record for each proposed exemption. Although a single petition may not encompass more than one proposed exemption, the same party may submit multiple petitions.

The petition form has two components:

1. *Petitioner identity and contact information.* The form asks for each petitioner (i.e., the individual or entity proposing the exemption) to provide its name and the name of its representative, if any, along with contact information. Petitioners and/or their representatives should be reachable through the provided contact information for the duration of the rulemaking proceeding. Multiple petitioning parties may jointly file a single petition.

2. *Description of the proposed exemption.* At this stage, the Office is only asking petitioners to briefly explain the nature of the proposed new or expanded exemption. The information that would be most helpful to the Office includes the following, to the extent relevant: (1) The types of copyrighted works that need to be accessed; (2) the

physical media or devices on which the works are stored or the services through which the works are accessed; (3) the purposes for which the works need to be accessed; (4) the types of users who want access; and (5) the barriers that currently exist or which are likely to exist in the near future preventing these users from obtaining access to the relevant copyrighted works.

To be clear, petitioners do not need to propose precise regulatory language or fully define the contours of an exemption class in the petition. A short, plain statement describing the nature of the activities the petitioners wish to engage in is sufficient. Although there is no page limit, the Office anticipates that petitioners will be able to adequately describe in plain terms the relevant information in a few sentences. The Office's petition form includes examples of what it regards as a sufficient description of a requested exemption.

Nor does the Office intend for petitioners to deliver the complete legal and evidentiary basis for their proposals in the petition, and specifically requests that petitioners not do so. Rather, the sole purpose of the petition is to provide the Office with basic information about the uses of copyrighted works that are adversely affected by the prohibition on circumvention. The Office will then use that information to itself formulate categories of potential exemptions, and group similar proposals into those categories, for purposes of the next, more substantive, phase of the rulemaking beginning with the publication of the NPRM.

Indeed, as during the previous two rulemakings, even the NPRM will not "put forward precise regulatory language for the proposed classes, because any specific language for exemptions that the Register ultimately recommends to the Librarian will necessarily depend on the full record developed during this rulemaking."²² Rather, the proposed categories of exemptions described in the NPRM will "represent only a starting point for further consideration in the rulemaking proceeding, and will be subject to further refinement based on the record."²³ Thus, proponents will have the opportunity to further refine or expound upon their initial petitions during later phases of the rulemaking.

V. Notice of Proposed Rulemaking

Following receipt of all petitions, as well as comments on petitions for

²² 82 FR at 29807 (quoting 79 FR 73856, 73859 (Dec. 12, 2014)).

²³ *Id.* (internal quotation marks and citation omitted).

²¹ Commenters may, however, respond to multiple *petitions* to renew the same exemption in a single submission. For instance, if the Office receives six petitions in favor of re-adopting the current wireless device unlocking exemption, a commenter can file a single comment that addresses points made in the six petitions. That comment, however, may not address petitions to re-adopt the jailbreaking exemption.

renewal, the Office will evaluate the material received and will issue an NPRM addressing all of the potential exemptions to be considered in the rulemaking.

The NPRM will set forth which exemptions the Register will recommend for reoption, along with proposed regulatory language. The NPRM will also identify any exemptions the Register has declined to recommend for renewal under the streamlined process, after considering any opposition received. Those exemptions will instead be subject to the more comprehensive rulemaking procedure in order to build out the administrative record. The Register will not at the NPRM stage make a final determination to reject recommendation of any exemption that meets the threshold requirements of section 1201(a).²⁴

For current exemptions for which renewal was sought but which were not recommended for reoption through the streamlined process and all new exemptions, including proposals to expand current exemptions, the NPRM will group them appropriately, describe them, and initiate at least three rounds of public comment. As with the seventh rulemaking, the Office plans to consolidate or group related and/or overlapping proposed exemptions where possible to simplify the rulemaking process and encourage joint participation among parties with common interests (though such collaboration is not required). As in previous rulemakings, the exemptions as described in the NPRM will represent only a starting point for further consideration in the rulemaking proceeding, and will be subject to further refinement based on the record. The NPRM will provide guidance regarding specific areas of legal and factual interest for the Office with respect to each proposed exemption, and suggest particular types of evidence that participants may wish to submit for the record. It will also contain additional instructions and requirements for submitting comments and will detail the later phases of the rulemaking proceeding—*i.e.*, public hearings, post-hearing questions, recommendation, and final rule—which will be similar to those of the seventh rulemaking.

²⁴ See 79 FR 55687, 55692 (Sept. 17, 2014) (explaining that part of the purpose of providing the information in the petition phase is so the Office can “confirm that the threshold requirements of section 1201(a) can be met”); see also 79 FR at 73859 (noting that three petitions sought an exemption which could not be granted as a matter of law and declining to put them forward for comment).

The Office expects to follow a similar timeframe for issuance of the NPRM and submission of comments that applied during the seventh rulemaking. In addition, as it did in the previous rulemaking, the Office will look for opportunities to discuss discrete issues, including suggestions regarding regulatory language, through its *ex parte* meeting process, and to ask additional post-hearing questions, where necessary to ensure sufficient stakeholder participation.²⁵

²⁵ See 82 FR at 29808; U.S. Copyright Office, *Ex Parte Communications*, <https://www.copyright.gov/1201/2018/ex-parte-communications.html>; U.S. Copyright Office, *Additional Correspondence from Participants in Proposed Class 10*, <https://www.copyright.gov/1201/2018/additional-correspondence/>; Section 1201 Study at 150–51.

I. Introduction

On June 11, 2020, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate a rulemaking proceeding to consider changes to analytical principles relating to periodic reports.¹ The Petition identifies the proposed analytical changes filed in this docket as Proposal Three.

II. Proposal Three

Background. The Postal Service’s current In-Office Cost System (IOCS) design uses a multi-stage probability sample to randomly select craft employees, including city carriers, and then an interval of work time from the employee’s tour for a “snapshot” of work activities in the work interval. Petition, Proposal Three at 1. The Postal Service states that moving data collectors to distant delivery units for carrier readings is costly so that in FY 2019, of over 250,000 individual readings scheduled on city carriers, over 85 percent were conducted by telephone. *Id.* The Postal Service asserts that the availability of detailed clock ring data from the Time and Attendance Collection System (TACS) allows reshaping of the sampling design to improve sampling efficiency and data quality. *Id.* The Postal Service explains that In Docket No. RM2019–6, the Commission approved the modelling of all Special Purpose Route (SPR) carrier costs using TACS data and econometric equations.²

Proposal. The Postal Service states that Proposal Three would change IOCS system design for city carriers to a cluster sampling utilizing census data from TACS to enable on-site data collection at locations and times where and when city carriers are working on the premises. Petition, Proposal Three at 3. Rather than sampling individual employees, the proposed design would sample blocks of time and then subsample clusters of carriers working during those blocks of time. *Id.* The Postal Service asserts that this new design improves data quality with more on-site data rather than telephone readings and, thereby, improves data collection efficiency. *Id.* at 1.

¹ Petition of the United States Postal Service for the Initiation of a Proceeding to Consider Proposed Changes in Analytical Principles (Proposal Three), June 11, 2020 (Petition). The Postal Service also filed a notice of filing of public and non-public materials relating to Proposal Three. Notice of Filing of USPS–RM2020–10–1 and USPS–RM2020–10–NP1 and Application for Nonpublic Treatment, June 11, 2020.

² *Id.* at 1–2. Docket No. RM2019–6, Order on Analytical Principles Used in Periodic Reporting (Proposal One), January 14, 2020 (Order No. 5405).
