HCLSoftware

Your Domino Apps —
Build Once, Work Anywhere

HCL Domino powers the apps that run your business. With HCL Nomad, you can unleash the power of those apps on desktops, mobile devices, and now — in a web browser with no code changes. Give your work teams greater flexibility and enable them to access their apps wherever they like.

HCL **Nomad**

Be More Productive — Work From Any Device

Design new Domino apps that run on a web browser and mobile device – work from anywhere on virtually any device.
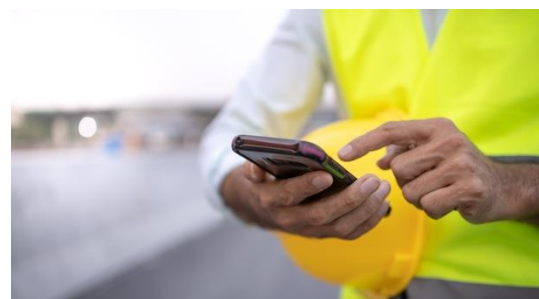

Gain Efficiency — No Desktop Client Upgrades Necessary

With Nomad Web access, upgrades are as simple as clicking refresh in your browser, eliminating the need for desktop client upgrades and support.

No Data Connectivity — No Problem

If you need to work without an internet connection, Nomad allows you to work offline and sync your work later.

Rock Solid Security Whether On-Premises or Cloud

Secure and protect your data privacy with Nomad on our proven, trusted Domino platform, whether deployed on-premise or in the cloud.

HCL **Nomad**

Take your Domino applications with you.

Key Features	Benefits
Liberate your workforce from the HCL Notes desktop client.	Run your Notes applications in a standard web browser without the need to install or update any software.
Deliver out-of-the-box, mobile access for Domino apps.	Go mobile - enable the flexibility to access Domino apps on virtually any device.
Build mobile apps faster and leverage device-specific capability.	Tailor the user experience based on device–built apps that access the camera, files, location, and native mobile gestures.
Modernize the look and user experience for existing Domino apps.	Restyle existing Domino apps in minutes – easily update one application or multiple apps all at once.
Ease the stress of managing HCL Notes and empower your workforce.	Significantly reduce help ticket requests and admin oversight with MarvelClient – enable management and monitoring with self-healing functionality.*
Customize the user experience.	Enable application switcher to save time and deliver menu shortcuts to specific applications.
Use your apps even if there is no data connectivity.	Improve your productivity by working offline to avoid interruptions caused by lack of an internet connection.
Run Nomad Web on popular web browsers.	Nomad can flexibly run on multiple web browsers including Chrome, Edge, and Firefox.
Transform your Domino apps – take advantage of native mobile device features.	Add additional app features and functionalities using GPS, barcode, QR code, and biometric authentication.

*MarvelClient is a Panagenda product licensed by HCLSoftware.
