

Dear colleagues,

Please note that the ICANN's Registry SLA monitoring has started monitoring from the below IP addresses.

103.219.169.15/32
2605:6440:e000:0:103:219:169:15/128

Also, the following IP addresses have been removed and are no longer required for the monitoring of your TLD(s).

185.40.87.34/32
2a04:8340:0:ffff::2/128

The above updates are reflected in the IP addresses of ICANN's Registry SLA monitoring list at the [RRI probe node list interface](#).

For any questions, please contact [ICANN Global Support](#).

Best regards,

Technical Services Team
