

Dear colleagues,

Please note that the ICANN's Registry SLA monitoring has started monitoring from the below IP addresses.

39.108.86.181/32
2408:4003:101c:3200:bed5:493f:8bf1:d636/128
2408:400a:bd:f00:ac1c:ef6:d2cd:629d/128

Also, the following IP addresses have been removed and are no longer required for the monitoring of your TLD(s).

106.14.153.43/32

The above updates are reflected in the IP addresses of ICANN's Registry SLA monitoring list at the [RRI probe node list interface](#).

For any questions, please contact [ICANN Global Support](#).

Best regards,
