

Dear Registry Operators and Registrars,

The ICANN organization would like to remind you of the upcoming maintenance period for the [Trademark Database](#) (TMDB). The TMDB facilitates Sunrise and Claims periods for registries and registrars.

The period will occur on 22 February 2023 at 08:00 UTC. TMDB services are expected to be unavailable for two to four hours. This includes the functions for the Domain Name List (DNL), Signed Mark Data Revocation List (SMDRL), Sunrise List (SURL), List of Registered Domain Names (LORDN), and the [TMDB web page](#).

The Claims Notice Information Services (CNIS) service will continue to be available during both maintenance periods.

If you have any questions, please contact Global Support by submitting a General Inquiry in the Naming Services portal or via [global.support@icann.org](mailto:global.support@icann.org).

Sincerely,  
GDS Service Delivery  
Internet Corporation for Assigned Names and Numbers (ICANN)
