

LastPass Site License

Secure Every Identity

Password Protection Across the Entire Organization

With the sheer volume of credentials your employees have, from personal to work, the exposure point for threat actors is constantly growing. Every department is using critical apps that contain business data and sensitive information -- marketing, legal, HR, IT, Sales, Finances, and Operations, that need to be protected.

LastPass makes password protection for your entire organization simple with a LastPass Site License. A Site License provides a LastPass account for every employee in your organization at a flat fee versus a seat-based rate.

Deploy Organization Wide to Save Big

A LastPass Site License is the most cost-effective way to ensure password protection across the entire organization at the lowest rate. Using the Site License, you can secure your entire organization for a flat-fee price and save up to 20%.

Scale LastPass as Your Company Grows

This option offers you the flexibility to scale your LastPass use and improve cyber hygiene as your company grows, without any added cost or license activation wait time.

Ensuring Your LastPass Site License is A Success

In addition to flexibility and functionality, LastPass Site License customers have access to LastPass Business Services and our team of experts who are available as you roll out LastPass across your organization. LastPass Business Services vary depending on the size of your deployment and spans administrator training, end user training, health monitoring, customized business plans and reviews.

LastPass Families as a Benefit

Families as a Benefit, included in all LastPass Site License packages, offers a LastPass Families license for every employee's personal password management at no added cost to the flat fee. Your employees will be granted a personal LastPass account plus 5 additional licenses to share with their family or friends, granting password protection with LastPass.

*LastPass Site Licenses are available for LastPass Business or LastPass Business + Advanced Add-On plans only
