

Premium Support for OpenText Software as a Service (SaaS)

Personalized services built on an infrastructure you can trust

SaaS Premium Support at a Glance:

- Access to a senior, named SaaS engineer
- Prioritized response and follow-up
- Mentoring and technical guidance to maximize solution value
- Account management to keep priorities on track
- Optional: Flexible Credits for advanced integration or customization services

You've made the decision to maximize the value of your OpenText™ software investment by leveraging our proven Software as a Service (SaaS) infrastructure. Now you can take this advantage one step further by adding personalized support and services.

With an OpenText™ Premium Support engineer, you get access to a named senior SaaS expert, who will learn the nuances of your business and support requirements to provide you with personalized, strategic support. Your Premium experience includes faster responses, escalated priority, and assistance with admin tasks tailored to your specific requirements.

SaaS Flex Credits top off your service package by providing you with access to additional consulting time for advanced integrations, advanced customization or project work; as well as access to any of the OpenText education courses.

SaaS Premium Support Engineers

With your SaaS solution, you have already tapped into a well-managed service that reduced your capital expenditure and up-front cost, was provisioned quickly, frees up your internal resources, keeps you up to date with the latest releases and upgrades, and allows you to quickly scale and only pay for what you need, when you need it.

By adding a SaaS Premium Support engineer, you will receive access to a named, senior engineer with deep technical expertise, who will do the following:

- Provide personalized SaaS support for a specific product center and in a specific region

- Know the specifics of your environment to address issues quickly and efficiently
- Provide technical mentoring on admin tasks and features and functionality to help you leverage the maximum potential of your software
- Visit your site to understand your business and develop a strong working relationship with your team
- Provide technical guidance and best practices to inform your planning

We will assign your SaaS Premium Support engineer based on the product specialty, level of dedication, breadth of services, and response times and hours of coverage that best match your business needs.

Premium Support Engineer options for SaaS include the following:

- **SaaS Technology Engineer (STE)**, who is semi-dedicated, provides prioritized response and follow-up, and visits your site up to 2 days a year. Outside of business hours, critical support cases will be submitted to the Service Operations Center (SOC).
- **Solution Support Engineer (SSE)**, who expands the dedication level to 25% of the engineer's time, includes the same target response times as the STE, but includes up to 4 days onsite and 24x7x365 contact with Premium for severity 1 issues.
- **Dedicated Support Engineer (DSE)**, who is dedicated full-time to support your OpenText solutions, includes 24x7x365 Premium contact with a 15 minute response for Severity 1, and strategically partners with you to ensure maximum value from your investment. issues,

SaaS Premium Support. Built for You and Your Business.

Connect with Us

Support Account Manager (SAM)

Your SaaS Premium Support package includes a Support Account Manager (SAM). The SAM will on-board your staff, advocate for issues important to you, and hold regular case reviews. The SAM will navigate internal processes to ensure escalations happen quickly and solutions to requests are provided in a timely manner. SAMs work with up to 20 customers.

Advanced Operations Delivery

For certain products, your SaaS Premium Support package includes an enhanced level of attention for cases opened with the Service Operations Center (SOC). Cases submitted via the SOC are flagged for priority status to receive expedited target response and resolution times, and are routed to senior SaaS resources.

Advanced Customization and Integration through Flexible Credits

OpenText Flexible Credits are ideal for those times when you need additional services—such as advanced customization, advanced requests, project services, or access to any of the OpenText education courses. We will build a package tailored to what you need; so you get exactly what you need, when you need it.

What's more, Flex Credits give you buying power throughout the year, avoiding extra procurement processes. You can purchase Flex Credits upfront with your SaaS contract or as

you go. Then simply redeem these Flex Credits for the services you need when and where you need them most.

SaaS Premium Support and Flex Credits—In Summary

Having someone you can trust and who understands your business and technical environment can make all the difference. SaaS Premium Support gives you named, senior support experts who really know your business and support needs. A blend of admin assistance, technical guidance and strategic support to ensure you get the most out of your SaaS investment.

SaaS Flex Credits allow you to schedule advanced integrations, advanced customization or project work when needed.

Layer these services on top of the OpenText SaaS infrastructure, where your software is being maintained and monitored by experts, and you have a winning solution.
