Pronouns

The OAIC email signature template provides space for you to include your pronouns if you would like to.

Pronouns are words we use to refer to people when not using their name. Examples include 'she/her', 'he/him' or 'they/them'.

Knowing and using a person's correct pronouns demonstrates respect for a fundamental part of their identity.

Including pronouns in your signature is a positive way to support colleagues and create a more inclusive environment for people of all backgrounds, genders and identities.
