**Public Hearing**

The Wild Resource Conservation Board (Board) has scheduled a public hearing for September 10, 2003, at 1 p.m. at the Game Commission, 2001 Elmerton Ave., Harrisburg, PA 17110. The purpose of the hearing is to provide individuals and organizations the opportunity to comment on the recommendations and programs funded with moneys from the Wild Resource Conservation Fund (Fund). The Board is interested in hearing from individuals or organizations who wish to comment on the projects

submitted for funding to the agencies, the Game Commission, the Fish and Boat Commission or the Department of Conservation and Natural Resources (Department) list published in this issue of the *Pennsylvania Bulletin*. Agencies project recommendations for funding will be presented at the public hearing.

Only comments from the general public regarding the projects received will be heard at the September 10, 2003, public hearing.

The Board will then evaluate all recommendations submitted for its consideration and final funding decisions will be approved at the annual meeting on November 12, 2003.

**Annual Meeting**

The Board has scheduled an annual meeting on November 12, 2003, at 1 p.m. at the Game Commission, 2001 Elmerton Ave., Harrisburg, PA 17110. A full report will be presented on the allocation of moneys from the Fund. The Board will consider all presentations made at the public hearing and the plans outlined by the professional technical staffs of the Fish and Boat Commission, the Game Commission and the Department.

The recommendations funded by the Board will be administered by the Fish and Boat Commission, the Game Commission and the Department. The recommendation selections will be based on their individual contribution to the management goals of three agencies and those outlined in the Wild Resource Conservation Act (32 P. S. §§ 5301—5313).

The following list includes the project recommendations requesting funding for 2003-2004 received by the Board. The public is invited to offer comment at the public hearing on September 10, 2003. The public hearing will be held at Game Commission, 2001 Elmerton Ave., Harrisburg, PA at 1 p.m. Limit comments to 5 minutes and provide eight copies for the Board.

**Project Submissions to the Fish and Boat Commission for Funding 2003-2004**

- *Conservation and Management of Fish, Herptiles and Aquatic Species—Special Projects*

*Objective:* PNDI reviews and impact evaluations, timber rattlesnake conservation and management, Fish and Boat Commission, The Nature Conservancy, PNDI Liaison.

*Justification:* 54 fish, 12 herptiles and 3 freshwater mussels are presently on the Pennsylvania endangered, threatened and/or candidate species lists. The position provides much needed baseline data and technical assistance in nongame and endangered species conservation.

*Sponsor:* The Nature Conservancy—Anthony Davis  
Fish and Boat Commission—John Arway

*Cost:* \$52,222

- *Development of a Historical Database as a First Step in Assessing Changes in the Crayfish Fauna of this Commonwealth Over the Past 100 Years*

*Objective:* Assemble this Commonwealth's historical crayfish data (mainly Ortmann 1906) into a readily accessible database and to add all of the available contemporary crayfish to this database.

*Justification:* The crayfish of this Commonwealth were thoroughly inventoried early in the 20th century. Since then, this Commonwealth's landscape has changed markedly. Development, habitat alterations and invasive species currently pose significant threats of this Commonwealth's crayfish.

*Sponsor:* Penn State—Robert Carline

*Cost:* \$13,690

- *Non-Native Trout Effects of Native Commonwealth Fishes and Associated Food Webs*

*Objective:* Determine direct effects of stocked trout on the Commonwealth endangered bridle shiner and iron color shiner in Marshalls Creek. Determine indirect effects of stocked trout on habitat-use by native nongame fishes. Determine cascading effects of non-native reproducing trout populations on headwater stream food webs.

*Justification:* Non-native trout are being removed from streams where they have displaced native trout in National park streams and wilderness areas. In addition to displacing native trout, introduced trout have had detrimental effects on Federally endangered fishes and have altered food webs in streams in Japan and New Zealand. However, little is known of what effects non-native trout have on nongame native fish in this Commonwealth.

*Sponsor:* Penn State—Jay Stauffer

*Cost:* \$53,904

- *Propagation and Recovery Plan for Longnose Suckers and Sharpnose Darters*

*Objectives:* Comprehensive review of existing water quality data for the Commonwealth portion of the Monongahela River drainage; suitability of reintroduced or introduction sites will be determined using biotic and abiotic determinates such as flora, fauna, water temperature, chemical water quality, flow and substrate, culture 10,000 longnose sucker young and 2,000 sharpnose darter young, release of cultured fishes into recommended sites determined by the Fish and Boat Commission, release sites will be monitored, determine if the population of longnose suckers in this Commonwealth is a distinct species.

*Justification:* Both longnose suckers and sharpnose suckers could benefit from implementation of a recovery plan. Methods exist for the propagation of both species. Review of case studies and application of current methodologies do hold promise for the recovery of these two species.

*Sponsor:* Penn State—Jay Stauffer

*Cost:* \$80,412

- *Status of the Introduced Rudd in this Commonwealth*

*Objective:* Comprehensive survey of the tributaries and inshore waters of Lake Erie to determine the presence and absence of the rudd; determine age classes and size classes present in each of the areas where rudd are found to determine if they have established reproducing, sustainable populations; develop a watch card to help anglers identify the rudd and educate them the dangers of transporting this species to other waters in this Commonwealth; print and distribute these cards.

*Justification:* Introduced fishes pose serious threats to the native fish fauna of this Commonwealth. It is ex-

remely important that the rudd not be introduced into other Commonwealth waters through bait-bucket introduction.

*Sponsor:* Penn State—Jay Stauffer

*Cost:* \$53,224

- *Dragonfly and Damselfly (Odonata) Inventory of French Creek Watershed in Northwestern Pennsylvania Glacial Lakes*

*Objective:* Systematic sampling of French Creek and its tributary riverine systems for dragonfly and damselfly aquatic larvae, exuviae and adults. Prepare and submit first preliminary report of collections. Systematic sampling of glacial lakes and their associated wetlands throughout the northwest portion of this Commonwealth for dragonfly and damselfly aquatic larvae, exuviae and adults. Lakes include Conneaut Lake, Edinboro Lake, Canadohta Lake, Sandy Lake, Sugar Lake, Lake LeBoeuf, Lake Pleasant and Crystal Lake.

*Justification:* The proposed dragonfly and damselfly inventory will fill a key role in interpreting aspects of present conditions of aquatic habitats and water quality in the French Creek watershed and glacial lakes in the northwestern portion of this Commonwealth.

*Sponsor:* Western Pennsylvania Conservancy—Todd A. Sampsell

*Cost:* \$49,500

- *Range Determination of the Eastern Massasauga Rattlesnake in this Commonwealth*

*Objective:* Obtain current, accurate location and distribution information for the Eastern Massasauga in this Commonwealth. Obtain data regarding onsite habitat characteristics and to relate habitat type and quality to the presence or absence of massasaugas. Use GIS technology to begin mapping habitat in known Massasauga areas. Obtain latitude and longitude coordinates of Massasauga locations and potential habitat locations. Visit and search all known location or suspected areas of high probability due to habitat availability or proximity to known sites. Record and report data regarding Massasauga locations, habitat availability and suitability.

*Justification:* A comprehensive range assessment has not been attempted on over 20 years and is sorely needed due to habitat destruction, alteration and degradation. Proper conservation and protection of this species requires current and accurate locations information. This study will allow for proactive conservation measures to occur before unreported sites are lost to habitat alteration or degradation.

*Sponsor:* Western Pennsylvania Conservancy—Benjamin Jellen

*Cost:* \$16,930

#### **Project Submissions to the Game Commission for Funding 2003-2004**

- *A Database of Pennsylvania Mammals in the Academy of Natural Sciences Mammalogy Collection*

*Objectives:* Capture data related to Pennsylvania mammal species from the mammalogy research collection's handwritten catalog into an electronic database; deliver an electronic copy of these data to the Department; provide these data to the public through a searchable website at the Academy; digital images of types and significant specimens of Pennsylvania mammals held at the Academy.

*Justification:* The mammalogy research collection at the Academy of Natural Sciences is one of the oldest in

the hemisphere. It is a rich historical collection with much material dating from between 1850 and 1940 including much regional material from the late 1800s and early 1900s that is not duplicated elsewhere. The collection consists of 23,000 lots mostly well organized study skins and associated skeletal material.

*Sponsor:* The Academy of Natural Sciences—Paul J. Morris

*Cost:* \$7,598

- *Support for Paid Field Assistants in the First Year of the 2nd Pennsylvania Breeding Bird Atlas*

*Objective:* Provide salary, benefits and defray travel costs for two teams each of two experienced and skilled field assistants working throughout this Commonwealth for up to 8 weeks between mid-May and mid-July 2004. They will provide complement to those of an anticipated 1,000 or more volunteers in meeting the project's primary objective. Atlas of Breeding Birds in Pennsylvania, the presence or absence of breeding evidence for some 200 bird species in nearly 5,000 25 km survey blocks in this Commonwealth.

*Justification:* The 2nd Pennsylvania Atlas will incorporate specially designed survey protocols that will provide a new dimension of understanding of the distribution of this Commonwealth's avifauna that will help insure its future conservation.

*Sponsor:* Carnegie Museum of Natural History—Robert S. Mulvihill

*Cost:* \$25,000

- *Evaluating the Distribution and Abundance of Reintroduced Otters in the Allegheny River Drainage: Applications of GIS, Genetic and Digital Technologies for Management of Rare Species*

*Objective:* Continue development and methodologies for identification of individual otters through extraction of DNA from their scats. Apply genetic methodologies to estimate population density of otters through analysis of DNA extracted from scats collected at study sites. Evaluate seasonal variation in group composition and behavior of otters at latrine sites for use in determining most appropriate times to collect scats for genetic analysis. Evaluate the distribution of reintroduced otter populations throughout the Allegheny River drainage in the western portion of this Commonwealth by conducting shoreline surveys to detect otter signs.

*Justification:* The Pennsylvania River Otter Reintroduction Project has been among the most successful and highly publicized projects ever implemented in this Commonwealth. This project will fulfill final IUCN reintroduction criteria that encourage the development and implementation of long-term monitoring strategies for reintroduced populations.

*Sponsor:* Frostburg State University—Thomas Serfass

*Cost:* \$30,000

- *Preparation and Disposition of Vertebrate Specimens from Various Collections and Surveys Into the State Museum*

*Objective:* Continue to organize and install specimens that have been transferred to the State Museum including specimens preserved in fluids and accessory collections from SUVM and other sources. Continue to organize and archive, electronically if possible, paperwork concerning the specimens including all trapline records, specimen sheets, accession records and other pertinent paperwork. This will focus on those specimen sheets and paperwork that have not been bound to date.

*Justification:* There are many specimens still awaiting processing from the Shippensburg University Vertebrate Museum and other museums and collections. New specimens are being collected from various ongoing surveys. These specimens need to be prepared and accessioned by the State Museum to ensure that the State Museum has a thorough collection of Pennsylvania mammals, herptiles and birds. The State Museum will have the assistance of an experienced mammalogist and museum preparator to regain the ASM accreditation.

*Sponsor:* The Nature Conservancy—James A. Hart

*Cost:* \$29,472

- *Important Mammal Areas Project—Phase II*

*Objective:* Nomination and selection of additional sites; public education efforts; production of maps for each selected site, with boundaries, corridors and buffers. Development of a process for either interfacing with existing management plans or developing management plans if none exist.

*Justification:* Development of Important Mammal Areas which is a tool for habitat conservation. Generate site maps and pilot the development of management plans for two to three sites. Maintain the IMAP office and its one staff member to provide support and coordination during this work.

*Sponsor:* Indiana University of Pennsylvania—Alicia Linzey

*Cost:* \$33,503

- *Wild Action Grant Program*

*Objective:* Enhance Commonwealth biodiversity encouraging students and youth groups to plant species for wildlife on school grounds and in communities. Provide financial and resource support for 20 schools and/or youth groups to create curriculum club programming and after school programs. Support a minimum of 300 students/youth group members in developing and 1,000 students/youth in using these habitats for helping to address environment and ecology standards.

*Justification:* Biodiversity is a current issue not well understood. The new State environment and ecology standards address concepts of biodiversity from K-12, primarily in the standard categories of environmental health, threatened and endangered species and ecosystems and their interactions.

*Sponsor:* Game Commission—Theresa Alberici

*Cost:* \$4,000

- *Effects of Acidic Deposition on Forest Birds*

*Objective:* Evaluate the effects of acidic deposition on breeding forest birds on sites where levels of acidic deposition are known to be high and evaluate the effects of liming as a mitigation technique. Compare breeding bird abundance and composition on acidic sites and limed. Compare the abundance and calcium content of soil invertebrates and snails available to ground-foraging birds on acidic sites and limed sites. For ovenbirds quantify territory size, reproductive success and eggshell characteristics between acidic and limed sites.

*Justification:* Acidic deposition may be responsible in part for declines of some forest-dwelling birds. Forests in this Commonwealth have been exposed to some of the highest levels of acidic deposition of any sites tested in North America, potentially threatening the quality of this habitat for breeding birds.

*Sponsor:* Penn State—Margaret Brittingham

*Cost:* \$21,677

- *Effects of Landscape- and Patch-Level Habitat Characteristics on the Distribution, Abundance and Nest Success of Acadian Flycatcher, Cerulean Warbler and Eastern Wood-Pewee in Southwestern Pennsylvania*

**Objective:** Measure abundance nest success of three forest bird species with declining populations in the Ohio Hills region of this Commonwealth; determine habitat factors within patches and landscapes that influence abundance and nest success; make conservation recommendations to benefit these breeding bird species in this Commonwealth.

**Justification:** This research will help to determine which habitat factors are the most important in causing declines of many forest bird species through increased predation and cowbird parasitism. This research will help determine which habitat factors are the most important in causing these declines.

**Sponsor:** California University of Pennsylvania—C. Allan Miller

**Cost:** \$12,118.36

- *Inventory of the Birdlife Found in Two Exceptional Value Subwatersheds to the Brodhead Creek Watershed in Monroe County*

**Objective:** Breeding bird survey; migratory and winter use survey; habitat assessment; GIS analysis; presentation of results; important bird area petition to the Ornithological Technical Committee to designate these watersheds as important bird areas.

**Justification:** The Pocono Mountain region of the north-east portion of this Commonwealth, in particular Monroe and Pike Counties, are the fastest growing counties in this Commonwealth. Designation of a parcel of land as an important bird area gives landowners another tool in developing conservation strategies for their property. An IBA designation gives a potential property greater consideration for open space initiative such as the Forest Legacy Program.

**Sponsor:** Pocono Avian Research Center, Inc.—Jackie Speicher

**Cost:** \$22,854

- *Status, Distribution and Conservation of Yellow-bellied Flycatcher (YBFL)*

**Objective:** Survey at least ten sites with potential for the YBFL. Mapping of YBFL and Blackpoll warbler territories in Dutch Mountain wetlands of State Game Land 57 and IBA. Collection of more macro- and micro-habitat data in YBFL territories. Documentation of YBFL and other rare species sites for PNDI, IBA, county NAI and Atlas projects.

**Justification:** YBFL is a Pennsylvania threatened species that is difficult to study because of its remote habitat and quiet habits. It represents a community of rare boreal and conifer species, including Olive-sided Flycatcher, Blackpoll Warbler, Swainson's Thrush, Red Crossbill and Pine Siskin. Habitat studies will enhance inventory and conservation programs.

**Sponsor:** Douglas A. Gross

**Cost:** \$5,000

- *Susquehanna River Birding and Wildlife Trail*

**Objectives:** Host two guide training sessions to train outfitters, employees, to lead bird and wildlife watching tours. Develop wayfinding and destination signs to guide visitors to stops on the birding and wildlife trail. Host a meeting for tourism promotion agencies and vacation bureaus, as well as hotel owners, and the like, to engage

them in developing a strong nature tourism program in this Commonwealth. Produce a bird trail book.

**Justification:** Conservation protection through increased awareness; education through interpretation at sites, visits to nature centers, associated festivals and events and citizen science opportunities. Economic growth through tourism generated taxes, fees and purchases of users which could lead to economic incentives for habitat protection.

**Sponsor:** National Audubon—Marci Mowery

**Cost:** \$51,000

- *IBA Volunteer Training/Bird Monitoring*

**Objective:** Complete all electronic data entry and compilation for IBA point count data collected from 2001 to 2003. Work in partnership with the second round of this Commonwealth's breeding bird atlas property by continuing standardized annual scientific bird inventories and monitoring at 25 IBA's expanding to include a minimum of 5-10 additional wetland and forest sites.

**Justification:** This Commonwealth's most significant avian habitats are forests and wetlands. "Penn's Woods" is an important part of the State's identity and represents our most significant bird habitat. Unfortunately, this Commonwealth's forested landscape has been degraded by deer over-browsing, roads, oil and gas development, inappropriate logging, exotic forest pests and sprawl housing development. Volunteer training is designed to rapidly accelerate IBA bird population monitoring and habitat conservation efforts Statewide.

**Sponsor:** National Audubon—Steve Hoffman

**Cost:** \$20,000

- *Partners-In-Flight (PIF) GAP Analysis: Delineating Bird Conservation in this Commonwealth*

**Objective:** Employ spatial analysis (GIS) methods to assess, quantify and map potential habitat focusing on PIF priority species. Obtain current habitat data to quantify recent trends of habitat loss for PIF priority species. Compare identified habitat to existing protected lands and IBAs to determine gaps in the protection status for these species

**Justification:** Designed to answer how much "secure habitat" can this Commonwealth contribute toward the maintenance of declining land bird populations and where should it be? This question can be best answered on a habitat and species specific basis using spatial analysis and GAP methods as proposed.

**Sponsor:** National Audubon—Steve Hoffman

**Cost:** \$30,000

- *Appalachian Cottontail Distribution in this Commonwealth*

**Objective:** Determine the current distribution of Appalachian cottontail rabbits in this Commonwealth relative to the historical range as reported in the literature. Determine an index of abundance for the Appalachian cottontail rabbit in selected locations to allow future comparisons and trend analysis.

**Justification:** The current distribution and population trend of the Appalachian cottontail rabbit in this Commonwealth is unknown. This rabbit has declined substantially in adjoining states where monitoring efforts have been completed.

**Sponsor:** Lock Haven University—Ralph Harnischfeger

**Cost:** \$7,555

**Project Submissions to the Department for Funding  
2003-2004**

• *Rare Plant Inventory within Northwestern Pennsylvania*

*Objective:* Continue search for new occurrences of rare plant communities and plants of special concern. Stewardship projects at Presque Isle, Erie National Wildlife Refuge and State Game Land 122. Search for *Carex chodorhiza* in Tioga County. Aquatic bed survey on the Allegheny and Clarion Rivers.

*Justification:* There is a great need for additional inventory in the northwestern portion of this Commonwealth for plants of special concern in this Commonwealth. If rare plants or rare natural communities are identified prior to development, a development can be altered or constructed in a manner that will allow the plants to survive.

*Sponsor:* Cleveland Museum of Natural History—James Bissell

*Cost:* \$15,000

• *Taking Stock of American Ginseng in this Commonwealth*

*Objective:* This project will initiate studies to generate information pertinent to the two principle interests in American ginseng: conservation and cultivation.

*Justification:* The lack of information surrounding ginseng collection in this Commonwealth is especially problematic for forest resource managers since commerce in the species is presently regulated and monitored under the Convention on International Trade in Endangered Species of Fauna and Flora agreement.

*Sponsor:* Penn State—Michael Jacobson

*Cost:* \$39,875

• *Field Surveys for Euphorbia purpurea, Soldago speciosa and Eurybia radula in this Commonwealth*

*Objective:* Update PNDI population figures for *Euphorbia purpurea*, glade spurge and contribute to an ongoing demographic study for eventual publication. Update PNDI population figures for *Eurybia (Aster) radula* rough leaved aster and contribute to a publication on the biology and distribution of the species.

*Justification:* Do a thorough report to the PNDI on the species conservation status. All four taxa are already either listed or recommended by the PABS for listing as plants of special concern.

*Sponsor:* Dickinson College—Carol Loeffler

*Cost:* \$1,248

• *The Lichen Flora of Eastern Pennsylvania*

*Objective:* Establish baseline data for lichen diversity in the eastern portion of this Commonwealth, inventory taxa present in the region; evaluate the distribution and abundance of taxa in the region.

*Justification:* Lichens at present are poorly known worldwide. Taxonomically lichens are poorly understood and as a result it is estimated that 15-20% of the species in eastern North America alone remain undescribed.

*Sponsor:* Carnegie Museum of Natural Sciences—James A. Macklin; James Lenderner

*Cost:* \$4,201.70

• *The Status of Crataegus (Hawthorn) in Eastern Pennsylvania*

*Objective:* Clarify the *Crataegus* species present in the eastern portion of this Commonwealth; evaluate the abundance of the species; identify the distribution pat-

terns of the species; aid in identifying further taxonomic problems present for later study.

*Justification:* This Commonwealth has a rich diversity of *Crataegus* species due to its size, physiography and bedrock geology. In the past few hundred years, as eastern North America was settled, Hawthorns have both benefited from the extensive clearing of forest that provide ample distributed habitat and suffered due to competition from exotic species introduced purposely or by accident.

*Sponsor:* The Academy of Natural Sciences—James A. Macklin

*Cost:* \$8,033.76

• *Field Surveys of Aquatic Plants of Northeastern Pennsylvania, Development of Quantitative Monitoring Techniques for Aquatic Vegetation and PNDI Project Review Assistance*

*Objective:* Strengthen the scientific basis for classification of vascular plants as endangered, threatened or rare by the Pennsylvania Natural Heritage Program. Expand the coverage of PNDI database by conducting field inventories of poorly studied or completely undocumented sites of probable occurrence of plant species of special concern. Provide project review staff for PNDI

*Justification:* In an effort to protect the natural biological diversity in this Commonwealth, land development proposals must be screened by PNDI to identify those that pose a threat to endangered, threatened, rare or candidate species.

*Sponsor:* Trustees of the University of Pennsylvania—Ann Rhoads

*Cost:* \$34,550

• *Seed Germination and Reproductive Biology of Agalinis auriculata and Endangered Pennsylvania Plants*

*Objective:* Identify host plants in this Commonwealth for endangered *Agalinis auriculata*, a facultative hemiparasite. Determine the compatibility system and potential pollinators in this Commonwealth.

*Justification:* Identify methods to preserve and manage the current populations of this species in this Commonwealth by learning more about its reproductive biology and host use in seed germination, growth and reproduction.

*Sponsor:* Cedar Crest College—Amy Faivre

*Cost:* \$5,613

• *Herbarium and Field Studies of Pennsylvania POSCIP*

*Objective:* Data recording and specimen verification. Record specimen label data from historical collections for any new taxa added to the POSCIP list at the Pennsylvania rare plant meeting in early 2004.

*Justification:* Specimen label data and accurate identification of specimens are essential to efforts to monitor populations of POSCIP species.

*Sponsor:* The Carnegie Museum of Natural History—Cynthia Morton

*Cost:* \$19,230

• *Invasive Plant Training for Friends Groups*

*Objective:* To produce a training program intended to produce a volunteer workforce dedicated to promoting the welfare of our parks and forests that are trained to identify survey and control invasive plants. All friends groups that are chapters of PPF will receive this training along with anyone requesting the training.

*Justification:* Friends groups are created to support State parks and forests. One kind of support is in the form of volunteer workers. This project is to develop a training program to give the groups the skills to identify and eventually control invasive plants.

*Sponsor:* Pennsylvania Parks and Forests Foundation—John Keith

*Cost:* \$30,000

- *RAPD Variation Within and Among Populations of Diarrhena Americana in Southwestern Pennsylvania*

*Objective:* Assess the overall genetic variability and population structure in three populations of *Diarrhena Americana* in southwestern portion of this Commonwealth; determine Nei's unbiased genetic distances and analyses of molecular variance for within and between population variation assessment. Compare genetic similarity between the two "near" populations in the same county and the more distant populations in a different county

*Justification:* Measurements of the genetic diversity in the recently identified local population of *Diarrhena Americana* will be extremely helpful in accurately determining the endangered status of this species in this Commonwealth.

*Sponsor:* California University of Pennsylvania

*Cost:* \$5,966

- *Determination of Tree Age-Diameter Relationships for Invasive Tree Species to Reconstruct Patterns in Commonwealth Forests*

*Objective:* Quantify relationships between tree age and diameter at breast height for tree-of-heaven and Norway maple, two of the most important invasive plant species in this Commonwealth. Develop these relationships into predictive tools for estimating tree age based on DBH data. Characterize invasion patterns of several populations in the southwestern portion of this Commonwealth.

*Justification:* Although tree-of-heaven and Norway maple are two of the most important invasive tree species in the northeastern United States, statistical relationships between tree age and DBH have not been determined for these species. This information is critical to forest managers concerned with the invasion patterns of these species.

*Sponsor:* California University of Pennsylvania—Thad E. Yorks

*Cost:* \$6,830

- *Documenting the Native and Introduced Flora Associated with Glacial Lakes in Northwest Pennsylvania, with Emphases on Rare Species and Invasive Alien Species*

*Objective:* Document the flora of the glacial lakes in the northwestern portion of this Commonwealth to facilitate planning for future stewardship of these unusual and fragile natural features.

*Justification:* Glacial lakes are among the most treasured natural features of this Commonwealth. Of the 1,500 lakes in this Commonwealth, only 50 were naturally formed. These lakes are important scenic and recreational resources. Glacial lakes also comprise habitat for many species of plants and animals that would not otherwise inhabit this Commonwealth.

*Sponsor:* Western Pennsylvania Conservancy—Steve Grund

*Cost:* \$66,414

- *History of Status Changes of Commonwealth Plants of Special Concern*

*Objective:* Track history of status changes for species on the POSCIP list. Accuracy of decisions made by the Vascular Plant Technical Committee will be improved with the document that will result from this work.

*Justification:* Increasing the accuracy of decisions made by the Vascular Plant Technical Committee concerning the status of plants of special concern will ensure that funding for plant species can better be distributed to projects involving species more in need of conservation funding.

*Sponsor:* Joseph A. Isaac, Botanical Consultant—Bonnie Isaac

*Cost:* \$4,500

- *Special Concern Plant Species—Research Management 2004-2005*

*Objective:* Conduct field surveys in the eastern portion of this Commonwealth to attempt to locate denovo populations, confirm extant or historical populations of plant species of special concern having PBS state statuses of endangered, threatened, rare or special concern in this Commonwealth.

*Justification:* Field work is necessary for the proper conservation of wild plant resources in this Commonwealth. Without the new and revised data that field surveys provide, the completeness and reliability of the PNHP/PNDI database and therefore plant conservation would be compromised.

*Sponsor:* The Nature Conservancy—John Kunsman

*Cost:* \$39,900

#### **Multiagency Projects Submitted for Funding 2003-2004**

- *Publication of the Checklists and Articles from the 2003 Pennsylvania Invertebrate Biodiversity Conference*

*Objective:* Compile and edit the checklists of selected Pennsylvania invertebrates presented in the conference; assemble and edit the manuscripts of papers presented in the conference; publish the papers presented in the conference; publish a hardcover version and put on the Internet an electronic version of the checklists of this Commonwealth's invertebrates by taxon.

*Justification:* Invertebrates are most numerous of all organisms and major players in the ecosystem processes that support and sustain our life-support system. They are closely involved with our daily lives and effect our enterprises, yet they are the least known group of organisms on this planet.

*Sponsor:* Penn State—K C Kim

*Cost:* \$7,422

- *Inventory and Ecological Studies of Pennsylvania's Aquatic Snails*

*Objective:* Continue field objectives funded in Year 1 which include gastropod collections, measuring water chemistry and recording habitat measures; use date to help build a modern collection record for this Commonwealth's aquatic gastropods; produce a report that will detail the fauna documented at all sites any relationships between water quality and snail species.

*Justification:* This study will help the Department of Environmental Protection in their efforts to assess all the waters of the State within the next few years.

*Sponsor:* Western Pennsylvania Conservancy—Ryan Evans

*Cost:* \$46,020

- *Land Snail Website and Slugkey*

*Objective:* Develop and launch a website profiling a variety of central Appalachian Mountain land snail species and land snail ecological issues for amateurs, higher education students and professional researchers. Develop a field key to native slugs employing simple field marks for use by amateur naturalists and professional biologists.

*Justification:* If we are to improve our understanding, use and conservation of land snails, especially among interested amateurs and the scientific community, a first step is to make current information more widely available. Develop a Pennsylvania land snail website and develop a field key to the State's native slugs.

*Sponsor:* Appalachian Conservation Biology—Kenneth Hotopp

*Cost:* \$14,550

- *Pennsylvania Bee Project*

*Objective:* Collect and curate bee specimens from a variety of this Commonwealth's geographic areas to document the state of bee diversity and to establish a baseline data set for this Commonwealth.

*Justification:* Bees have coexisted with flowering plants for millions of years and as pollinators are vital to the health of native plant populations. The Pennsylvania Bee Diversity Project seeks to understand and protect wild pollinators by collecting baseline data of bee biodiversity in important natural communities.

*Sponsor:* The Pennsylvania Heritage Society

*Cost:* \$23,437

- *A Review and Update of Species Status Categories and Criteria that help Determine Conservation Priorities in this Commonwealth*

*Objective:* Develop an explicit, objective framework for classification of a broad range of species according to the need for or the usefulness of conservation measures for their protection; review and adapt and test the applicability of International Union for Conservation of Nature and Natural Resources Red List Categories and Criteria for possible use in this Commonwealth; produce a booklet for use by the Pennsylvania Biological Survey and the Pennsylvania Biodiversity Partnership.

*Justification:* There is a need for listing protocols and for science based categories and criteria that highlight conservation needs commensurate; a species risk of extinction from this Commonwealth.

*Sponsor:* Jerry Hassinger

*Cost:* \$11,900

- *Pennsylvania Biodiversity Conservation Plan: Phase 3*

*Objective:* Continued public meetings to solicit additional comments and recommendations; continued outreach through the PBP website, exhibits at conferences and lectures; continued information gathering. Upgrades to the PBP website to augment its interactive search capabilities.

*Justification:* Funding both State and private sources is necessary for matching dollars by the United States

Fish and Wildlife Title VIII grant received by PBP for the development of the Pennsylvania Biodiversity Conservation Plan.

*Sponsor:* Pennsylvania Biodiversity Partnership—Sue Thompson

*Cost:* \$27,500

- *Study of Pennsylvania Fireflies to Facilitate Identification and Conservation*

*Objective:* Project seeks to resolve systematic problems in Pennsylvania fireflies and provide accurate public information on their identification, distribution, phenology and conservation.

*Justification:* Fireflies are well known insects in this Commonwealth. However, it is difficult to distinguish it from related species.

*Sponsor:* Carnegie Museum of Natural History—John Rawlins

*Cost:* \$32,733

- *Preliminary Study of Pennsylvania Ground Beetles*

*Objective:* Construct a distributional checklist of Pennsylvania ground beetles that is authoritative; supplement that list with new information from unstudied counties and aides for identification.

*Justification:* Ground beetles are the most frequently used lineage of terrestrial indicator organisms to assess ecological conditions in terrestrial habitats that include soil, understory and semiaquatic communities.

*Sponsor:* Carnegie Museum of Natural History—Robert L. Davidson

*Cost:* \$15,340

- *Illustrated Field Guide to the Crane Flies of this Commonwealth*

*Objective:* Concentrate collecting of crane flies in areas within this Commonwealth that were missed from the existing database. Produce a pictorial crane fly identification field guide with information on habitat, distribution and natural history. Produce a website that provides an expansive link and makes our finding fully accessible to ecologists, students of systematics and museums.

*Justification:* Crane flies constitute the most diverse family of flies, but are poorly represented in scientific collections due to their fragility. The presence or absence of crane fly species, common as well as rare, are important indicators of ecological function in Commonwealth aquatic habitats.

*Sponsor:* Carnegie Museum of Natural History—Chen Young

*Cost:* \$22,520

- *County Natural Areas Inventories*

*Objective:* To complete the identification of natural areas within Bradford and Carbon Counties and to initiate surveys for rare species and exemplary natural communities and other sites of conservation value in three new counties. To provide these data to county and municipal officials, conservation organizations, the development community and the public to allow them to make better informed conservation decisions in the respective counties.

*Justification:* The 21st Century Environment Commission Report recommended funding for completion of the NAI's as a step toward preserving this Commonwealth's natural diversity. To preserve that diversity land use

planners and other must know what that diversity is and where it is represented on the landscape.

*Sponsor:* The Nature Conservancy—William Gleason, Anthony Davis

*Cost:* \$144,642

• *County Natural Areas Inventories*

*Objective:* Complete county natural heritage inventories and initiate and perform inventories in additional counties in the western portion of this Commonwealth.

*Justification:* A county natural heritage inventory is a systematic study of the biological resources of a county. It includes plants, animals, natural communities and habitats that are important to these living resources.

*Sponsor:* Western Pennsylvania Conservancy—Jeffrey Wagner

*Cost:* \$344,000

• *Multidimensional Diorama at Benjamin Olewine III Nature Center*

*Objective:* Contribute to the cost of the multidimensional interactive exhibit at the Wildwood Lake Sanctuary with the Wild Resource Conservation Fund listed as a contributor.

*Sponsor:* The Friends of Wildwood Lake Nature Center, Inc.

*Cost:* \$35,000

• *Hauto Valley Conservation Park*

*Objective:* Develop the last culm bank in the Hauto Valley into a conservation park. This project includes lands, which had long since been naturally reclaimed and were established in tertiary forest.

*Justification:* The reclamation plan for this property used the site attributes and historical data about the site to re-establish some semblance of what was originally and naturally on the site while working around manmade conditions that could not be changed.

*Sponsor:* Nesquehoning Creek Watershed Alliance—Bruce Conrad

*Cost:* \$156,000

Persons wishing to comment on a WQM permit application are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after any public hearings are held.

Persons with a disability, who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

### PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environ- mental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n) (1) (ii) and 305(c) (2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and

implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. #### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

##### NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department regional office within 30 days of the

date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

## COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or

local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided

with a 30 day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

#### WATER OBSTRUCTIONS AND ENCROACHMENTS

*Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.*

**E46-938. Valley Forge Center Associates, L. P.**, The Merion Building, 700 South Henderson Road, Suite 225, King of Prussia, PA 19406, West Norriton Township, **Montgomery County**, ACOE Philadelphia District.

The applicant proposes the following water obstructions and encroachments associated with the Riverview at Valley Forge, a mixed commercial and residential redevelopment of the existing Betzwood Industrial Park.

1. To relocate 560 linear feet of the site's eastern unnamed perennial tributary to Schuylkill River (WWF-MF). The existing twin 48-inch RCP stream enclosure will be modified and extended downstream, enclosing approximately 280 linear feet of watercourse. The extended stream enclosure will outfall to a newly constructed natural channel, convey flows for approximately 600 linear feet then rejoin the tributary. This modification includes removing a 70-foot long downstream segment of the existing 48-inch RCP stream enclosure, constructing junction box manhole cleanout no. 2.1, placing approximately 240 linear feet of a twin 48-inch RCP, constructing junction box manhole cleanout no. 2.2, placing 40 linear feet of a twin 54-inch RCP, endwall no. 2.9 and 600 linear feet of relocated natural channel to facilitate the construction of an access road, parking areas and residential buildings.

2. To fill 739 linear feet of the abandoned channel after removing 108 linear feet of an existing 46-inch span and 44-inch rise stream enclosure, which conveys the site's eastern unnamed perennial tributary of the Schuylkill

River under an existing building from the reach of stream which will be relocated as noted in Item 1.

3. To place an 8-inch PVC sanitary sewer, gas, water, electric, cable and telephone utility crossings beneath the existing enclosure extension and relocated watercourse noted in Item 1 (eastern channel).

#### ENVIRONMENTAL ASSESSMENTS

**EA10-020NW, Aquascape Wetland and Environmental Services**, 147 South Broad Street, Grove City, PA 16127, BC 19 and 19B Remediation Project in Marion Township, **Butler County**, ACOE Pittsburgh District (Barkeyville, PA Quadrangle N: 6.9 inches; W: 6.02 inches).

The purpose of the assessment is to treat tow abandoned mine drainage discharges through the construction of a passive treatment system that will consist of a collection system, drop structure and treatment wetland. To treat the existing mine drainage pollution from the BC 19 and 19B discharges, a collection system will be constructed to convey flow to a drop structure for the accumulation of metal precipitates. Flows will then pass through the treatment wetland. The proposed reclamation will result in the creation of an estimated 0.5 acre treatment wetland that will provide for aeration of flows and deposition of metal precipitates. The completed system will discharge treated water into Blacks Creek (CWF).

Project proposes to breach and remove Mount Penn Dam No. 3, a high hazard dam across a tributary to Antietam Creek (CWF). The purpose of the breach is to eliminate a threat to public safety and to restore the stream to free-flowing conditions. Project also involves the construction of an earthen off-stream nonjurisdictional dam and reservoir for fire service. The dam is approximately 1,300 feet northeast of the intersection of Hill Road (T442) and T409 (Reading, PA Quadrangle N: 16.9 inches; W: 1.7 inches).

**D45-277EA. Game Commission**, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797. Jackson Township, **Monroe County**, ACOE Philadelphia District.

Project proposes to modify the outlet structure and operation of the existing Wolf Swamp Run dam across Wolf Swamp Run (EV). The project consists of installing a new principle spillway, emergency spillway and general embankment repairs plus seeding. The operation of the dam will be modified to allow winter draw down of the Wolf Swamp Run dam reservoir increasing downstream flow to Pocono Creek when flows in Pocono Creek are 6 CFS or less. The draw down will drop the normal pool a maximum 2.5 feet, decreasing the reservoir's surface area from 26 acres to 17 acres. Normal pool will be re-established by April 1. The change in operation will allow Camel Back Ski Resort to continue withdrawing water from Pocono Creek for snowmaking while maintaining adequate flows in Pocono Creek. The dam is on State Game Lands No. 38 (Pocono Pines, PA Quadrangle N: 8.6 inches; W: 2.7 inches).

Bethany Borough	438 Wayne Street Bethany, PA 18431	Wayne

Plan Description: The plan was disapproved by the Department on July 7, 2003, primarily for the following reasons:

- The Resolution of Adoption contained language of a fiscal nature. The Department maintains the position that Resolutions of Adoption must not include language which in one way or another makes implementation contingent upon some future fiscal event or fiscal condition.
- Reserve capacity at the Honesdale Borough Municipal Treatment Facility was not evaluated. In addition, the Department had no documentation to support the claim that improvements being conducted by Honesdale Borough would have provided adequate capacity for Bethany Borough.
- Sewage Management Programs were not considered per Appendix C of the Manual "A Guide for Preparing Act 537 Update Revisions."
- Cost estimates using present worth analysis for some of the collection and treatment alternatives were not presented.
- The plan did not comply with the antidegradation requirements contained in 25 Pa. Code § 94.3(c). All nondischarge disposal alternatives were not considered and a cost effectiveness evaluation was not completed per 25 Pa. Code Chapter 7.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).**

Provisions of 25 Pa. Code § 250.8 and the administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. ### Disadvantaged Business Enterprise (DBE) Program

On June 16, 2003, the United States Department of Transportation (USDOT), by publication in the *Federal Register*, 68 Fed. Reg. 35542 (June 16, 2003) (to be codified at 49 CFR Part 26), issued a final rulemaking revising its regulations governing Participation by Disadvantaged Business Enterprises (DBE) in Department of Transportation Financial Assistance Programs. The final rulemaking took effect on July 16, 2003. The Department of Transportation (Department) intends to review the Commonwealth's approved 1999 DBE Program document and conform it, where appropriate, to the USDOT final rulemaking.

The USDOT final rulemaking permits, but does not require, USDOT fund recipients (that is, state departments of transportation) to expand the amount of credit for trucking operations by allowing additional credit for a DBE that leases trucks from a non-DBE. The Department

has carefully reviewed the option afforded by the final rulemaking and initially has elected not to incorporate the calculation of additional credit permitted by the USDOT final rulemaking, but to maintain the current crediting practice under the existing program.

Interested parties are invited to offer comment regarding whether the Department should continue with the current crediting practice or consider incorporating the calculation practice permitted by the USDOT final rulemaking.

Persons who wish to provide comments should direct them in writing to Jocelyn I. Harper, Director, Bureau of Equal Opportunity, Department of Transportation, P. O. Box 3251, Harrisburg, PA 17105-3251, (717) 787-5891, fax: (717) 772-4026. Comments must be postmarked by September 15, 2003, for consideration.

On July 15, 2003, the Environmental Quality Board (Board) accepted a rulemaking petition for study under 25 Pa. Brown, Chair of the Whitemarsh Township Environmental Advisory Board, requests assessment of the designated use of Spring Mill Creek in Whitemarsh Township, Montgomery County. The petitioner requests the redesignation of Spring Mill Creek from its current Warm Water Fishes (WWF) designation to High Quality-Cold Water Fishes (HQ-CWF) or Exceptional Value (EV) status.

# GOVERNOR'S OFFICE

## Catalog of Nonregulatory Documents

Pursuant to Executive Order 1996-1, agencies under the jurisdiction of the Governor must catalog and publish non-regulatory documents such as policy statements, guidance manuals, decisions, rules and other written materials that provide compliance related information. The following compilation is the seventh list of the non-regulatory documents. This list is updated and published annually on the first Saturday in August.

This catalog is being provided to ensure that the public has complete access to the information necessary to understand and comply with state regulations. We have made every effort to ensure that the catalog includes all documents in effect as of August 1, 2003; however, due to the breadth and changing nature of these documents, we cannot guarantee absolute accuracy. Facilitating access to information is important to enhancing the partnership between the regulated community and the state.

## TURNPIKE COMMISSION

### Retention of an Engineering Firm

#### I-95/I-276 (Pennsylvania Turnpike) Interchange Project

#### Design of Intelligent Transportation System, Signing and Lighting

#### Contract I-95-ITS

#### Bucks County

#### Reference No. 4-062

The Turnpike Commission (Commission) will retain an engineering firm to provide preliminary and final design services for an Intelligent Transportation System (ITS), roadway signing and required roadway lighting for a direct interchange between I-95 and I-276 in Bucks County. This contract covers the entire limits of the I-95/I-276 (Pennsylvania Turnpike) Interchange Project (project) and is one of approximately eight contracts for design of elements of the project.

*Overall Project Description*—The project includes: construction of a new interchange between I-95 and I-276; six-lane widening and reconstruction of approximately 8 miles of the Turnpike from west of Interchange 28/351 to the Delaware River Bridge; six-lane widening and reconstruction of approximately 3 miles of I-95 within the Interchange limits southward to Neshaminy Creek Bridge; widening of U. S. Route 1 where it crosses over the Turnpike and Turnpike ramps at Interchange 28/351; construction of a new mainline toll plaza; and modification of existing toll plazas at Interchanges 29/358 and

30/359 (near the west abutment of the Delaware River Bridge). The significant cost of the project makes it necessary to design and construct the project in coordinated phases. The design manager will coordinate the work of the design section consultants so as to accommodate the required construction letting schedule.

*General Contract Requirements*—This contract includes the development of preliminary and final designs for ITS, roadway signs and necessary roadway lighting for the project. In addition to the development of projectwide systems, this design team will be required to develop workable ITS, signing and lighting subsystems that can be deployed as sections of the project are constructed and placed under traffic. Conceptual signing plans developed during the preliminary engineering and environmental studies will be provided to the designer and may be used as a basis for preliminary layouts. The exit numbering system on I-95 and I-295 shall conform to Department of Transportation (Department) requirements. This contract will include the staged integration of components of the ITS system as individual usable sections of the project are completed in separate phases of construction. In addition, communications within the project area and communications and coordination between the Commission and the Department's District 6 TOCs and other operating agencies in the region will be included.

### General Requirements and Information

Firms interested in providing the previous work and services are invited to submit a statement of interest with the required information. The statements of interest must include the following:

1. One-page transmittal letter clearly identifying the project reference number, brief description of the project from the advertisement, the firm's Federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified.)
2. A three-page expression of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for each project and provide explanation of the technical approach.
3. An organization chart for the project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultants listed in the statement of interest will require written approval from the Commission.
4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Department and Commission projects. Do not graphically represent the firm's workload.
5. A Consultant Qualification Package similar to the one submitted to the Department for the current year or one that is best suited for this project. A copy of the Consultant Qualification Package printed directly from the Department's ECMS website is acceptable.

## Retention of an Engineering Firm

### I-95/I-276 (Pennsylvania Turnpike) Interchange Project

#### Design of Interchange Section, I-95-D

#### Bucks County

#### Reference No. 4-064

The Turnpike Commission (Commission) will retain an engineering firm to provide preliminary and final design services for a direct interchange between I-95 and I-276 in Bucks County. The contract section covers approximately 1.8 miles along the Turnpike, approximately 1.8 miles along existing I-95 and is centered where the two Interstate routes cross. This contract is one of approximately eight contracts for design of specific sections of the I-95/I-276 (Pennsylvania Turnpike) Interchange Project (project).

*Overall Project Description*—The project includes: construction of a new interchange between I-95 and I-276; six-lane widening and reconstruction of approximately 8 miles of the Turnpike from west of Interchange 28/351 to the Delaware River Bridge; six-lane widening and recon-

struction of approximately 3 miles of I-95 within the Interchange limits southward to Neshaminy Creek Bridge; widening of U. S. Route 1 where it crosses over the Turnpike and Turnpike ramps at Interchange 28/351; construction of a new mainline toll plaza; and modification of existing toll plazas at Interchanges 29/358 and 30/359 (near the west abutment of the Delaware River Bridge).

*Description of Design Contract Section*—This contract section includes reconstruction and widening of the Turnpike from just west of the Neshaminy Creek Bridge to just west of the Bristol-Oxford Valley Road overpass and reconstruction and widening of existing I-95 from just north of the interchange ramp termini southward to a point just north of the Route 413 Interchange ramps. The contract also includes all interchange ramps associated with the preferred alternative identified in the Final Environmental Impact Statement, dated June 2003, for the project. Design of the Interchange will be performed in phases that facilitate the staging of its construction.

*Contract Requirements*—The contract involves all aspects of preliminary and final design for the roadways and structures within the contract limits as previously described, including: preparation of related right-of-way acquisition plans; utility relocation plans and coordination; geotechnical services; pavement design for approach roadways; traffic control plan preparation; erosion and sedimentation control plans; hydraulic and hydrologic analysis; information needed to secure all permits; noise barrier analysis and design; culverts; retaining walls; support of public involvement program including attendance at public/community meetings; coordination with the project design manager; other design firms, the Department of Transportation (Department) and municipalities, including attendance at design meetings; constructability reviews; and contract document preparation. Design for reconstruction of the Ford Road Bridge over I-95 is included in contract I-95-S.

Base mapping (50 scale) is being prepared by another firm and will be provided to the successful firm.

This designer will be required to establish a "best fit" geometric alignment along both the Turnpike and I-95 throughout the entire project. This alignment is to be furnished to the project design manager for use by other section designers.

The Commission will consider the following factors during the evaluation of the statements of interest for these projects:

- Specialized experience and technical competence of prime consultant and subconsultants. The team must clearly demonstrate experience and competence on design of large-scale public works projects.

- Past record of performance with respect to cost control, work quality ability to meet schedules and previous experience on design projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project and the client.

- The specific experience and number of individuals who constitute the firm.

- Location of consultant's office where the work will be performed.

- Workload of the prime consultant and subconsultants for all Department and Commission projects.

- Other factors, if any, specific to the project.

Address these items and any necessary further details in a brief yet comprehensive manner in the statement of interest.

Firms expressing interest in this project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Transportation Equity Act for the 21st Century (act) and currently certified by the Department shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of DBE. The goal of DBE participation in this contract will be 12%. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they are defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the statement of interest. If the selected firm fails to meet the established goal, it shall be required to demonstrate its good faith efforts to attain the goal.
