

Business Charts

Business users can dynamically create intelligent analytical reports using the ad-hoc reporting capabilities provided by Business Charts. The Application supports multi-level drill down functionality.

It is a plug and play application with zero development efforts which in turn provides cost savings to the organization.

Users can generate any number of reports in real time by selecting an Application and a data entity and then configure the report details. Business Charts simplify the work of business users as they can generate reports, export it via Excel and share it on the fly as per need.

Business Charts

Powerful framework to dynamically create multilevel drillable reports using ad-hoc reporting capabilities. Generated reports are easily exported to excel and shared via mail with zero development efforts.

Quick Creation of Charts

Making a chart is as simple as selecting a few details and populating the charts.

Multi-Level Drill Downs

Supports powerful, multilevel drill down functionality. User can drill down using Pie/Column charts at various levels of the drill down.

Real Time Updates

With any change in data, user can automatically generate updated reports.

Configure and Save

Business user can easily create, review and approve/reject a batch record.

Easy Export and Download

Generated charts can be exported into Microsoft Excel.

Easy to Share Charts

Charts can be shared with anyone via email.
