

Vendor Management System

Persistent's Vendor Management System uses the Appian platform to provide a cost-effective and efficient tool for the strategic selection and realtime monitoring of vendors.

Successful vendor selection plays a key role in effective business management. Critical to this selection process is identifying the risks associated not only with an individual vendor, but also the accumulation of risk overall within an organization. Risk assessment ensures third-party products and services comply with applicable laws, regulations, and security best practices.

Vendor Management System

Provides Appian application owners complete visibility to vendor onboarding and performance.

Audit Capabilities

Offers audit log component support for data modification and approval history.

Vendor Insights

Provides a single source for vendor records and dashboards for tracking vendor relationships.

Task Insights

Complete drill down from vendors to tasks, at any point of the onboarding process.

Performance Insights

How did each vendor perform in each quarter?

Vendor Rating & Reporting

Produces consolidated feedback rating reports and notes about each vendor.

Plug and Play

Enables efficient electronic documentation management using PDF generation tools.
