

Information table

What is service packaging?

A service packaging is filled at the point of sale "in the presence of the consumer", usually at the time of purchase (shopping bag, fruit and vegetable bag, pastry box, bread bag, wrapping paper for meat or cheese, etc.).

Who declares what?

Service packaging	declared by the supplier/importer of service packaging
Production packaging	declared by bakeries, butchers, catering services etc.
Non-packaging	not to be declared
